The Invention of China Bill Hayton, 2020-10-13 A provocative account showing that China and its 5 000 years of unified history is a national myth created only a century ago with a political agenda that persists to this day China's current leadership lays claim to a 5 000 year old civilization but China as a unified country and people Bill Hayton argues was created far more recently by a small group of intellectuals In this compelling account Hayton shows how China's present day geopolitical problems the fates of Hong Kong Taiwan Tibet Xinjiang and the South China Sea were born in the struggle to create a modern nation state In the late nineteenth and early twentieth centuries reformers and revolutionaries adopted foreign ideas to invent a new vision of China By asserting a particular politicized version of the past the government bolstered its claim to a vast territory stretching from the Pacific to Central Asia Ranging across history nationhood language and territory Hayton shows how the Republic's reworking of its past not only helped it to justify its right to rule a century ago but continues to motivate and direct policy today
