Direction de la documentation,1973 **General and Periodic Crises of Overproduction** Jean Lescure,2023-11-14 Jean Lescure s two volume General and Periodic Crises of Overproduction is a pioneering study of the causes and consequences of industrial crises in capitalist economies in the nineteenth and early twentieth centuries The author who held doctorates in political economy and law is most remembered as a founder of the French historical school and a staunch advocate of empiricism in the economic sciences Lescure called his approach the complex historical method by which he sought to revise classical and quantitative economic theory through the historical analysis and statistical observation of cyclical phenomena Ever the controversialist Lescure wrote in an engaging style accessible to non specialists and economists alike and critiqued the leading monetary theorists of the period insisting that observation of the movements in production costs industrial orders and profits be given priority over circulation and credit in understanding the periodic crises of capitalist economies In Lescure s view crises were inevitable in both market and command economies and their onset and consequences were predictable with the help of the more detailed production statistics newly available to economists and entrepreneurs at the time Observation of corporate profits the margin between cost price and selling price provided the means to predict crises and measure their impact not only on industry and trade but also on the working classes who would endure unemployment and the many social ills that accompany it Lescure unlike many of the liberal economists of the time was always careful to include in his historical account statistical analysis of unemployment figures as well as those on crime marriage and birth rates homelessness and suicide Although he remained sceptical of government intervention in the form of monetary policies adjusting the money supply and lauded the success of industrial concentration and trusts in reducing costs and prices Lescure admitted the state s role in the recovery of the 1930s

when social insurance schemes and investment in public works mitigated the worst effects of unemployment for industrial labour This treatise which grew out of his doctoral work was a lifetime project for Lescure who updated it periodically over five editions to include each new cycle of growth crisis depression and recovery Volume one provides a historical study of economic crises from the post Napoleonic period through the Great Depression and the recovery of the late 1930s Volume two offers a critique of the theories of crises their causes and potential remedies in which Lescure outlines his preference for organic theories that focus on the production process and qualitative statistical observation of the movements in costs selling prices industrial orders and profits The text of the fifth edition appears here in English for the first time unabridged and complete with editorial materials designed to help the English reader understand the work on its own terms and situate its author s prominent place in the history of economic thought *Canadian Who's Who 2008* Elizabeth Lumley, 2008-01-05 Now in its ninety eighth year of publication this standard Canadian reference source contains the most comprehensive and authoritative biographical information on notable living Canadians Those listed are carefully selected because of the positions they hold in Canadian society or because of the contribution they have made to life in Canada The volume is updated annually to ensure accuracy and 600 new entries are added each year to keep current with developing trends and issues in Canadian society Included are outstanding Canadians from all walks of life politics media academia business sports and the arts from every area of human activity Each entry details birth date and place education family career history memberships creative works honours and awards and full addresses Indispensable to researchers students media business government and schools Canadian Who s Who is an invaluable source of general knowledge The complete text of Canadian Who s Who is also available on CD ROM in a comprehensively indexed and fully searchable format Search astronaut or entrepreneur of the year aboriginal achievement award and Order of Canada and discover a wealth of information Fast easy and more accessible than ever the Canadian Who s Who on CD ROM is an essential addition to your electronic library
