17 include decisions of the War Labor Board **License to Spill** Rachel Plotnick,2025-04-29 How everyday wetness from
finger smudges sweat and spilled drinks to showering and swimming collides with consumers media devices designed to stay
dry License to Spill investigates the everyday moments activities and spaces where media technologies and liquids collide
from disastrous spilled drinks that corrode laptops and drops in the toilet that drown smartphones to the greasy finger
smudges and sweat droplets that sully screens and glitch smartwatches Putting historical and present day case studies in
conversation Rachel Plotnick considers how people s experiences with media devices inevitably encounter wetness and yet
consumers not the companies who make the devices take the blame when leaks spillages and overflows occur Along with
thinking about preventive measures and device caretaking License to Spill examines how water resistant and waterproofed
technologies through their design and marketing imagine the brawnier and hardier of users meant to punish and abuse
their tough devices granting them unfettered permission to get wet Examining a long history of torture testing and
hyperbolic claims of imperviousness the book demonstrates how protective designs relate to broader cultural ideas about
media use as sporty luxurious excessive or messy This context is especially relevant given that the market for water resistant
bags cases coatings and seals has flourished over the past decade with new rhetoric about wetness as natural and digital
technologies as ever present The book pushes us to attend to both the ideals and problems that arise when designing
resilient devices ranging from the right to repair movement and lawsuits over ingress protection IP ratings to obsolescence
