**Of Borders and Thresholds** Michal Kobialka, 1999 The theatre is full of borders and boundaries between the real and illusionary conditions of the stage between the way one acts onstage and in real life between stage and audience performance and reception As such theatre offers a unique opportunity to examine the construction representation and functioning of borders This is the task undertaken by the authors of this volume the first to apply the lexicon and concepts of border theory to theatre history and performance theory The contributors highly regarded theatre historians theorists and practitioners address a wide range of border related themes Their topics include the construction of America in the sixteenth century theatre practices in eighteenth century England American Latino playwrights performances of gender and sexuality cyborg technologies and fashion Playing with Theory in Theatre Practice Megan Alrutz, Julia Listengarten, M. Van Duyn Wood, 2011-11-29 Through a collection of original essays and case studies this innovative book explores theory as an accessible although complex tool for theatre practitioners and students These chapters invite readers to re imagine theory as a site of possibility or framework that can shape theatre making emerge from practice and foster new ways of seeing creating and reflecting Focusing on the productive tensions and issues that surround creative practice and intellectual processes the contributing authors present central concepts and questions that frame the role of theory in the theatre Ultimately this diverse and exciting collection offers inspiring ideas raises new questions and introduces ways to build theoretically minded dynamic production work **Borderscaping: Imaginations and Practices of Border Making** Chiara Brambilla, Jussi Laine, Gianluca Bocchi, 2016-04-15 Using the borderscapes concept this book offers an approach to border studies that expresses the multilevel complexity of borders from the geopolitical to social practice and cultural production at and across the border Accordingly it encourages a productive understanding of the processual de territorialized and dispersed nature of borders and their ensuring regimes in the era of globalization and transnational flows as well as showcasing border research as an interdisciplinary field with its own academic standing Contemporary bordering processes and practices are examined through the borderscapes lens to uncover important connections between borders as a challenge to national and EU policies and borders as potential elements of political innovation through conceptual re framings of social political economic and cultural spaces The authors offer a nuanced and critical re reading and understanding of the border not as an entity to be taken for granted but as a place of investigation and as a resource in terms of the construction of novel geo political imaginations social and spatial imaginaries and cultural images In so doing they suggest that rethinking borders means deconstructing the interweaving between political practices of inclusion exclusion and the images created to support and communicate them on the cultural level by Western territorialist modernity The result is a book that proposes a wandering through a constellation of bordering policies discourses practices and images to open new possibilities for thinking mapping acting and living borders under contemporary globalization **Borderscaping: Imaginations and Practices of Border**

Digital Performance Steve Dixon, 2015-01-30 The historical roots key practitioners and artistic theoretical and technological trends in the incorporation of new media into the performing arts The

past decade has seen an extraordinarily intense period of experimentation with computer technology within the performing arts. Digital media has been increasingly incorporated into live theater and dance and new forms of interactive performance have emerged in participatory installations on CD ROM and on the Web. In *Digital Performance*, Steve Dixon traces the evolution of these practices, presents detailed accounts of key practitioners and performances, and analyzes the theoretical, artistic, and technological contexts of this form of new media art. Dixon finds precursors to today's digital performances in past forms of theatrical technology that range from the *deus ex machina* of classical Greek drama to Wagner's Gesamtkunstwerk concept of the total artwork and draws parallels between contemporary work and the theories and practices of Constructivism, Dada, Surrealism, Expressionism, Futurism, and multimedia pioneers of the twentieth century. For a theoretical perspective on digital performance, Dixon draws on the work of Philip Auslander, Walter Benjamin, Roland Barthes, Jean Baudrillard, and others. To document and analyze contemporary digital performance practice, Dixon considers changes in the representation of the body, space, and time. He considers virtual bodies, avatars, and digital doubles, as well as performances by artists including Stelarc, Robert Lepage, Merce Cunningham, Laurie Anderson, Blast Theory, and Eduardo Kac. He investigates new media's novel approaches to creating theatrical spectacle, including virtual reality and robot performance, work, telematic performances in which remote locations are linked in real time, Webcams, and online drama communities, and considers the extratemporal illusion created by some technological theater works. Finally, he defines categories of interactivity from navigational to participatory and collaborative. Dixon challenges dominant theoretical approaches to digital performance, including what he calls postmodernism's denial of the new, and offers a series of boldly original arguments in their place.
