Gas Sweetening and Processing Field Manual Maurice Stewart, Ken Arnold, 2011-10-26 Rigorous exposition of all natural gas sweetness processes

Oil & Gas Handbook Will Pettijohn P.E.C., 2012-02 This book offers you a brief but very involved look into the operations in the drilling of an Oil Gas well From start to finish you will see a general prognosis of the drilling process If you are new to the oil gas industry you will enjoy having a leg up with the knowledge of these processes If you are a seasoned oil gas person you will enjoy reading what you may or may not know in these pages

Handbook of Biocide and Preservative Use H.W. Rossmore, 1994-12-31 My professional interest in antimicrobial agents and contamination control goes back 50 years to my tour as a microbiologist in a field hospital in Europe during World War II With no experience and relying solely on a military handbook I prepared thermometer trays with jars of blue bichloride of mercury and pink isopropyl alcohol A preliminary typhoid diagnosis of one of our cooks resulted in the need for lab testing His stool specimen and its subsequent disposal was my problem My handbook said bum it So burn it I did in a five gallon can with gasoline Flames shot up almost six feet and my next mistake was to extinguish them with carbon tetrachloride This resulted in the production of lethal phosgene gas The hospital had a near disaster I could say that at that moment I vowed to write a how to book so that such stupidities could be avoided Nevertheless when I was offered the opportunity to edit this book I thought back on the need for a real practical treatment of my subject This book then is a practical handbook for technical service personnel and scientists who are not necessarily specialists in microbiology It provides information on suitable antimicrobial agents appropriate to their particular problem solving needs and information on the microbial groups contributing to the specific problem their ecologies and strategies for controlling their access to the area or material of interest
