Oklahoma Public Schools Spring Break 2015:

Breaking Down Barriers David W. Levy, 2020-09-10 For nearly sixty years the University of Oklahoma in obedience to state law denied admission to African Americans Only in October 1948 did this racial barrier start to break down when an elderly teacher named George McLaurin became the first African American to enroll at the university McLaurin's case championed by the NAACP drew national attention and culminated in a U S Supreme Court decision In Breaking Down Barriers distinguished historian David W Levy chronicles the historically significant and at times poignant story of McLaurin's two year struggle to secure his rights Through exhaustive research Levy has uncovered as much as we can know about George McLaurin 1887-1968 a notably private person A veteran educator he was fully qualified for admission as a graduate student in the university's School of Education When the university denied his application solely on the basis of race McLaurin received immediate assistance from the NAACP and its lead attorney Thurgood Marshall who brilliantly defended his case in state and federal courts On his very first day of class as Levy details McLaurin had to sit in a special alcove separate from the white students in the classroom Photographs of McLaurin in this humiliating position set off a firestorm of national outrage Dozens of other African American men and women followed McLaurin to the university and Levy reviews the many bizarre contortions that university officials had to perform often against their own inclinations to accord with the state's mandate to keep black and white students apart in classrooms the library cafeterias and dormitories and the football stadium Ultimately in 1950 the U S Supreme Court swayed by the arguments of Marshall and his co counsel Robert Carter ruled in McLaurin's favor The decision as Levy explains stopped short of toppling the decades old doctrine of separate but equal But the case led directly to the 1954 landmark decision in Brown v Board of Education which finally declared that flawed policy unconstitutional

Blowout Rachel Maddow,2019-10-01 1 NEW YORK TIMES BESTSELLER Big Oil and Gas Versus Democracy Winner Take All A rollickingly well written book filled with fascinating exciting and alarming stories about the impact of the oil and gas industry on the world today The New York Times Book Review In 2010 the words earthquake swarm entered the lexicon in Oklahoma That same year a trove of Michael Jackson memorabilia including his iconic crystal encrusted white glove was sold at auction for over 1 million to a guy who was officially just the lowly forestry minister of the tiny nation of Equatorial Guinea And in 2014 revolutionaries in Ukraine raided the palace of their ousted president and found a zoo of peacocks gilded toilets and a floating restaurant modeled after a Spanish galleon Unlikely as it might seem there is a thread connecting these events and Rachel Maddow follows it to its crooked source the unimaginably lucrative and equally corrupting oil and gas industry With her trademark black humor Maddow takes us on a switchback journey around the globe revealing the greed and incompetence of Big Oil and Gas along the way and drawing a surprising conclusion about why the Russian government hacked the 2016 U S election She deftly shows how Russia's rich reserves of crude have paradoxically

stunted its growth forcing Vladimir Putin to maintain his power by spreading Russia's rot into its rivals its neighbors the West's most important alliances and the United States Chevron BP and a host of other industry players get their star turn most notably ExxonMobil and the deceptively well behaved Rex Tillerson The oil and gas industry has weakened democracies in developed and developing countries fouled oceans and rivers and propped up authoritarian thieves and killers But being outraged at it is according to Maddow like being indignant when a lion takes down and eats a gazelle You can't really blame the lion It's in her nature Blowout is a call to contain the lion to stop subsidizing the wealthiest businesses on earth to fight for transparency and to check the influence of the world's most destructive industry and its enablers The stakes have never been higher As Maddow writes Democracy either wins this one or disappears
