The Elementary School Library Collection, Phases 1-2-3 ,2000 *Artists and Copyright* Felicity Moreau, AI, 2025-02-21

Artists and Copyright serves as an essential legal guide demystifying copyright law and intellectual property rights for artists across various disciplines. It tackles the critical need for creators to safeguard their work in today's digital age. The book explores key areas such as what constitutes copyrightable material and the rights granted to copyright holders, offering insights into navigating licensing agreements to authorize the use of artistic creations. Understanding art law empowers artists to defend their work, generate income, and build sustainable careers. The book progresses from foundational concepts to practical applications, beginning with the history of copyright and delving into specific aspects like fair use and the Digital Millennium Copyright Act. Case studies of well-known artists illustrate copyright disputes and resolutions, while significant attention is given to licensing processes, including various types of licenses and drafting enforceable agreements. This comprehensive approach provides artists with the knowledge to make informed decisions about protecting their creative rights and navigating the complexities of the art business.

Future Law Edwards Lilian Edwards, 2020-03-02 How will law regulation and ethics govern a future of fast-changing technologies? Bringing together cutting-edge authors from academia, legal practice, and the technology industry, *Future Law* explores and leverages the power of human imagination in understanding, critiquing, and improving the legal responses to technological change. It focuses on the practical difficulties of applying law, policy, and ethical structures to emergent technologies both now and in the future. It covers crucial current issues such as big data, ethics, ubiquitous surveillance, and the Internet of Things, and disruptive technologies such as autonomous vehicles, DIY genetics, and robot agents. By using examples from popular culture such as books, films, TV, and Instagram, including *Black Mirror*, Disney Princesses, *Star Wars*, *Doctor Who*, and *Rick and Morty*, it brings hypothetical examples to life. And it asks where law might go next and how to regulate new phase technology such as artificial intelligence, smart homes, and automated emotion recognition.

God on Mars Eileen A. Goodday, 2021-06-24 This is a nonfiction work of God's calling upon the author to make known in this publication material by His appointed plan. The material reflects the author's present recollection of experiences over time apart from God's keeping to encompass the planet Mars and beyond. The publication is to instill belief towards God welcoming all believers and nonbelievers for He sows the seed of knowledge among everyone who searches Him in part of a whole to be instruments of His peace. Minor changes were made along with recollections and dialogues compressed in the efforts to spread His Messages. Any interpretation other than chosen in the author would not be the work of God. All Glory be to God.

Brand Management Michael Beverland, 2021-02-03 Presenting the basics of brand management, the book provides both a theoretical and practical guide to brands, placing emphasis on the theory that the consumer is a co-creator in a brand's identity. In a world in which social media and inclusive digital platforms have increased customer engagement, the role of brands and branding has changed. The line between the producer and the consumer has become blurred; consumers are no longer the recipients of brand identity but the co-creators playing a significant role in shaping new products and systems. Case studies include the Canterbury Crusaders, KVD Beauty, Kodak,
