Authoritarianism and the Evolution of West European Electoral Politics Erik R. Tillman, 2021-07-22

Authoritarianism and the Evolution of West European Electoral Politics provides a novel explanation of rising Euroscepticism and right wing populism in Western Europe The changing political and cultural environment of recent decades is generating an ongoing realignment of voters structured by authoritarianism which is a psychological disposition towards the maintenance of social cohesion and order at the expense of individual autonomy and diversity High authoritarians find the values and demographic changes of the past several decades a threat to social cohesion which has created an opportunity for PRR parties to gain their support by campaigning against these perceived threats to national community posed by immigration values change and European integration The result is a worldview evolution in which party conflict is shaped by the rival preferences of high and low authoritarians Drawing on national and cross national survey data as well as an original survey experiment this book demonstrates how the relationship between authoritarianism and 1 attitudes towards the EU and 2 voting behaviour has evolved since the 1990s In doing so this book advances these literatures by providing an explanation for why certain voters are shifting towards PRR parties as electoral politics realigns *The New Walford* Ray Lester, 2005 Covers 15 broad subject groupings social sciences generic psychology sociology social work politics government law finance accountancy industries business education sport media information and tools for information professionals

Reforming the European Union Daniel Finke, Thomas König, Sven-Oliver Proksch, George Tsebelis, 2012-07-29 For decades the European Union tried changing its institutions but achieved only unsatisfying political compromises and modest incremental treaty revisions In late 2009 however the EU was successfully reformed through the Treaty of Lisbon *Reforming the European Union* examines how political leaders ratified this treaty against all odds and shows how this victory involved all stages of treaty reform negotiations from the initial proposal to referendums in several European countries The authors emphasize the strategic role of political leadership and domestic politics and they use state of the art methodology applying a comprehensive data set for actors reform preferences They look at how political leaders reacted to apparent failures of the

process by recreating or changing the rules of the game While domestic actors played a significant role in the process their influence over the outcome was limited as leaders ignored negative referendums and plowed ahead with intended reforms The book s empirical analyses shed light on critical episodes strategic agenda setting during the European Convention the choice of ratification instrument intergovernmental bargaining dynamics and the reaction of the German Council presidency to the negative referendums in France the Netherlands and Ireland

bodies groaned under burgeoning legislative activity and Eastern enlargement was expected to limit law making efficiency At the same time European citizens grew wary of EU politics and increasing integration This book explains how European governments handled these challenges and step by step agreed on significant reforms which led to the signing of the Lisbon Treaty in December 2007 Drawing on unique survey data European Integration and Its Limits provides a solid empirical analysis of the three most important intergovernmental conferences It shows how far voters and political parties have been able to influence European treaty reforms and it scrutinises the mechanisms underlying intergovernmental treaty negotiations in an ever growing Union The book discusses the domestic position formation process as well as the dynamics of intergovernmental bargaining Ultimately it explains European integration from Maastricht to Lisbon
