

OPC Unified Architecture

Industrial machine-to-machine communication protocol for interoperability

- ▶ Originally developed by OPC Foundation for IoT applications (keyword Industry 4.0)
- ▶ OO Information modeling capabilities
- ▶ Enhanced security, performance and scalability
- ▶ Supports buffering, session mgmt, pub-sub, per-connection heartbeats/timeouts, discovery
- ▶ Multi-platform implementation, lightweight ↪ embedding possible
- ▶ Commercial SDKs available with stack from OPC foundation or open source stack implementations (C, C++, Java, JS, Python) for servers and clients

- ↪ Excellent experience in ATLAS since 2012
- ▶ Fully supported by JCOP
- ▶ Still requires expertise and effort in programming with OPC UA ...
- ↪ Provide development environment and generate OPC UA related code?

OPC Unified Architecture, 2019 **OPC Unified Architecture** Wolfgang Mahnke, Stefan-Helmut Leitner, Matthias Damm, 2009-04-05 Motivation for This Book The OPC Foundation provides specifications for data exchange in industrial automation There is a long history of COM DCOM based specifications most prominent OPC Data Access DA OPC Alarms and Events A on the lower end a model similar to Classic OPC can be used providing only base information while at the upper end highly sophisticated models can be described providing a large amount of metadata including complex type hierarchies

OPC Unified Architecture Singapore Standards Council, 2023 **Interoperability Principles and Standards: Applications to Collaborative and Automated Systems** François Vernadat, Arturo Molina, Hervé Panetto, Georg Weichhart, 2025-03-19 Interoperability is the ability for two or more systems to interoperate i.e. to share and use common information and/or to use functionality of one another The purpose of the book is to explain what one should know to be able to understand or implement systems interoperability at the technical semantic and organization levels of an enterprise system or of a collaborative automated system In particular it presents the rationale the basics the common methods and the essential standards for the engineering of interoperable systems The book is intended to serve as a textbook for those who need 1 to study basic principles concepts and techniques along with applications of systems interoperability and 2 need to know applicable standards for planning engineering or implementing interoperability solutions Applications will concern but are not limited to automated collaborative environments The book should also serve as a reference document for students and academia at undergraduate and graduate levels or in engineering schools as well as for researchers practitioners consultants and engineers faced with interoperability problems in service industrial government or administrative sectors

Standardization in Smart Grids Mathias Uslar, Michael Specht, Christian Dänekas, Jörn Trefke, Sebastian Rohjans, José M. González, Christine Rosinger, Robert Bleiker, 2012-12-14 The first successful finished Smart Grid Prototype Projects deliver new requirements and best practices to meet them These solutions will be the base for the upcoming norms and standards in the near future This domain is not only part of one Standard developing Organization SDO but also of many different organizations like ITU ISO IEC and additionally for the electro mobility part the SAE This results in many standards which are based on different aspects Furthermore the European mirror organizations ETSI CEN CENELEC as well as the German mirror groups of these groups are involved which are delivering further rules and adaption for the local market Because of this diversity of organizations involved it is difficult for the local companies which includes energy utility manufacturer and software producer specialized on integration to identify the relevant trends standardization groups and technologies necessary With the EU Mandate M490 to CEN CENELEC and ETSI and the Commission being a driving force e.g. ftp ftp

cenelec eu CENELEC Smartgrid SmartGridFinalReport pdf and <http://www.cenelec.eu/aboutcenelec/whatwedo/technologysectors/smartgrids.html> standardization becomes more and more important but it is complex and not easy to be understood Here at OFFIS we provide training but we are always asked for textbooks on our trainings Based on our modules for the SG trainings we would estimate the following chapters to be relevant to SG stakeholders in standardization roughly 16 20 pages per chapter

Industry 4.0 and Advanced Manufacturing Amaresh Chakrabarti, Satyam Suwas, Manish Arora, 2022-07-23 This book presents selected papers from the 2nd International Conference on Industry 4.0 and Advanced Manufacturing held at the Indian Institute of Science Bangalore and includes deliberations from stakeholders in manufacturing and Industry 4.0 on the nature needs challenges opportunities problems and solutions in these transformational areas Special emphasis is placed on exploring avenues for creating a vision of and enablers for sustainable affordable and human centric Industry 4.0 The book showcases cutting edge practice research and educational innovation in this crucial and rapidly evolving area This book will be useful to researchers in academia and industry and will also be useful to policymakers involved in creating ecosystems for implementation of Industry 4.0

Demystifying Internet of Things Security Sunil Cheruvu, Anil Kumar, Ned Smith, David M. Wheeler, 2019-08-13 Break down the misconceptions of the Internet of Things by examining the different security building blocks available in Intel Architecture IA based IoT platforms This open access book reviews the threat pyramid secure boot chain of trust and the SW stack leading up to defense in depth The IoT presents unique challenges in implementing security and Intel has both CPU and Isolated Security Engine capabilities to simplify it This book explores the challenges to secure these devices to make them immune to different threats originating from within and outside the network The requirements and robustness rules to protect the assets vary greatly and there is no single blanket solution approach to implement security Demystifying Internet of Things Security provides clarity to industry professionals and provides an overview of different security solutions What You'll Learn Secure devices immunizing them against different threats originating from inside and outside the network Gather an overview of the different security building blocks available in Intel Architecture IA based IoT platforms Understand the threat pyramid secure boot chain of trust and the software stack leading up to defense in depth Who This Book Is For Strategists developers architects and managers in the embedded and Internet of Things IoT space trying to understand and implement the security in the IoT devices platforms

S-BPM ONE - Scientific Research Christian Stary, 2012-03-31 This book constitutes the thoroughly refereed scientific proceedings of the 4th International Conference on Subject Oriented Business Process Management S BPM ONE 2012 held in Vienna Austria in April 2012 The 12 papers were carefully reviewed and selected from 36 submissions and are completed by one invited keynote paper and a summary of the tutorial on subject oriented business process management S BPM as a discipline is characterized by a seamless approach toward the analysis modeling implementation execution and maintenance of business processes with an explicit stakeholder focus This year's contributions

address all life cycle activities in particular analyzing business objectives subject behavior design and integration and automating complex work procedures Handbook on Digital Twin and Artificial Intelligence Techniques for Rail Applications Maksym Spiryagin, Stefano Bruni, Colin Cole, 2025-06-17 With contributions from experts from around the world this handbook aims to systemize the existing experience and knowledge that can be used to the development of more efficient and controlled railway systems As a result this handbook showcases the modern methods methodologies and frameworks for the development of DT and AI architectures and apparatus in the area of the existing railway systems and transport engineering tasks The chapters cover such varied and specialized topics as the processes related to the transformation of a physical twin into a digital twin the application of data driven and physics based simulation approaches in the development of digital twins asset management application tasks with the implementation of DT and AI and the experimental and field applications of the DT and AI concepts and technologies in railway transport system design and predictive maintenance tasks Handbook on Digital Twin and Artificial Intelligence Techniques for Rail Applications is essential reading for engineers practitioners and researchers involved in the development of railway transport and transit systems **DIN EN IEC 62541-9, OPC Unified Architecture. Part 9, Alarms and Conditions (IEC 62541-9:2020)**, 2021 **Collaborative Process Automation Systems** Martin Hollender, 2010 Providing a comprehensive overview of the state of the art in Collaborative Process Automation Systems CPAS this book discusses topics such as engineering security enterprise connectivity advanced process control plant asset management and operator efficiency Collaborating with other industry experts the author covers the system architecture and infrastructure required for a CPAS as well as important standards like OPC and the ISA 95 series of standards This in depth reference focuses on the differences between a CPAS and traditional automation systems Implications on modern automation systems are outlined in theory and practice This book is ideal for industrial engineers as well as graduate students in control and automation Semantic Service Integration for Smart Grids S. Rohjans, IOS Press, 2012-12-13 The scope of the research presented includes semantic based integration of data services in smart grids achieved through following the proposed S2 In approach developed corresponding to design science guidelines This approach identifies standards and specifications which are integrated in order to build the basis for the S2 In architecture A process model is introduced in the beginning which serves as framework for developing the target architecture The first step of the process stipulates to define requirements for smart grid ICT architectures being derived from established studies and divided into two classes architecture and non functional requirements NFR Based on the architecture requirements the following specifications have been basically selected The IEC CIM representing a domain specific data model the OPC UA being a communication standard with special respects to information modeling and WSMO as an approach to realize the concept of Semantic Web Services The next step specifies to develop both a semantic information model integration of CIM and OPC UA and semantic services integration of CIM and WSMO These two

components are then combined to obtain the target architecture which allows precise descriptions of services as well as their combination and semi automatic execution Finally the NFR are considered in order to evaluate the architecture based on simulated representative use cases

Research Anthology on BIM and Digital Twins in Smart Cities Management Association, Information Resources,2022-09-16 In recent years smart cities have been an emerging area of interest across the world Due to this numerous technologies and tools such as building information modeling BIM and digital twins have been developed to help achieve smart cities To ensure research is continuously up to date and new technologies are considered within the field further study is required The Research Anthology on BIM and Digital Twins in Smart Cities considers the uses challenges and opportunities of BIM and digital twins within smart cities Covering key topics such as data design urban areas technology and sustainability this major reference work is ideal for industry professionals government officials computer scientists policymakers researchers scholars practitioners instructors and students
