Hess, 2011-09-15 Learning in a Musical Key examines the multidimensional problem of the relationship between music and theological education Lisa Hess argues that in a delightful and baffling way musical learning has the potential to significantly alter and inform our conception of the nature and process of theological learning In exploring this exciting intersection of musical learning and theological training Hess asks two probing questions First What does learning from music in a performative mode require Classical modes of theological education often founder on a

dichotomy between theologically musical and educational discourses It is extremely difficult for many to see how the perceivedly nonmusical learn from music Is musicality a universally human potential In exploring this question Hess turns to the music learning theory of Edwin Gordon which explores music s unique mode of teaching learning its primarily aural oral mode This challenge leads to the study s second question How does a theologian in the disciplinary sense integrate a performative mode into critical discourse Tracking the critical movements of this problem Hess provides an inherited transformational logic as a feasible path for integrating a performative mode into multidimensional learning This approach emerges as a distinctly relational embodied multidimensional and non correlational performative mode theology that breaks new ground in the contemporary theological landscape As an implicitly trinitarian method rooted in the relationality of God this non correlational method offers a practical theological contribution to the discipline of Christian spirituality newly claimed here as a discipline of transformative teaching learning through the highly contextualized and self implicated scholar into relationally formed communities and ultimately into the world      Pentecostal Pioneer Dynnice Rosanny D Engcoy,2017-11-29 Rose Engcoy s insightful study of the life and ministry of Rodrigo e Rudy is a legitimate contribution to the historiography of the Pentecostal Charismatic movement in the Philippines about which so little has been done Here we some valuable insights into the life of one of the six Filipino pioneers of the Assemblies of God church in the Philippines Esperanza began as a church planter and pastor and later also served as an educator and long time senior executive in the Assemblies of God in the Philippines He played a vital role in that church s early success which brought it to the forefront of the Pentecostal Charismatic movement in his beloved homeland Today the number of Christians is multiplying in the Asia Pacific region and Pentecostals and Charismatics are in the vanguard of that growth      Finance for Normal People Meir Statman,2017 Finance for Normal People teaches behavioral finance to people like you and me normal people neither rational nor irrational We are consumers savers investors and managers corporate managers money managers financial advisers and all other financial professionals The book guides us to know our wants including hope for riches protection from poverty caring for family sincere social responsibility and high social status It teaches financial facts and human behavior including making cognitive and emotional shortcuts and avoiding cognitive and emotional errors such as overconfidence hindsight exaggerated fear and unrealistic hope And it guides us to banish ignorance gain knowledge and increase the ratio of smart to foolish behavior on our way to what we want These lessons of behavioral finance draw on what we know about us normal people including our wants cognition and emotions And they draw on the roles of these factors in saving and spending portfolio construction returns we can expect from our investments and whether we can hope to beat the market Meir Statman a founder of behavioral finance draws on his extensive research and the research of many others to build a unified structure of behavioral finance Its foundation blocks include normal behavior behavioral portfolio theory behavioral life cycle theory behavioral asset pricing theory and behavioral market efficiency
