MOOCs Jonathan Haber, 2014-09-26 Everything you always wanted to know about MOOCs an account of massive open online courses and what they might mean for the future of higher education The New York Times declared 2012 to be The Year of the MOOC as millions of students enrolled in massive open online courses known as MOOCs millions of investment dollars flowed to the companies making them and the media declared MOOCs to be earth shaking game changers in higher education During the inevitable backlash that followed critics highlighted MOOCs high dropout rate the low chance of earning back initial investments and the potential for any earth shaking game change to make things worse instead of better In this volume in the Essential Knowledge series Jonathan Haber offers an account of MOOCs that avoids both hype and doomsaying Instead he provides an engaging straightforward explanation of a rare phenomenon an education innovation that captures the imagination of the public while moving at the speed of an Internet startup Haber explains the origins of MOOCs what they consist of the controversies surrounding them and their possible future role in education He proposes a new definition of MOOCs based on the culture of experimentation from which they emerged and adds a student perspective missing in most MOOC discussion Haber's unique Degree of Freedom experiment during which he attempted to learn the equivalent of a four year liberal arts degree in one year using only MOOCs and other forms of free education informs his discussion Haber urges us to avoid the fallacy of thinking that because MOOCs cannot solve all educational challenges they are not worth pursuing and he helps us understand what MOOCs despite their limitations still offer the world His book is required reading for anyone trying to sort out the competing claims aspirations and accusations that color the MOOC debate

Crime and Deviance in Cyberspace David S. Wall, 2017-07-05 This volume presents the reader with an interesting and at times provocative selection of contemporary thinking about cybercrimes and their regulation The contributions cover the years 2002-2007 during which period internet service delivery speeds increased a thousand fold from 56kb to 56mb per second When combined with advances in networked technology these faster internet speeds not only made new digital environments more easily accessible but they also helped give birth to a completely new generation of purely internet related cybercrimes ranging from spamming phishing and other automated frauds to automated crimes against the integrity of the systems and their content In order to understand these developments the volume introduces new cybercrime viewpoints and issues but also a critical edge supported by some of the new research that is beginning to challenge and surpass the hitherto journalistically driven news stories that were once the sole source of information about cybercrimes **Light Sensitive**

Learners Wendy Johnson, 2024-04-08 This book explains why Australian governments are doing nothing for marginalised light sensitive learners Government inaction is explored via policymaking theories and contrasted with a case study of active policymaking in a NSW high school which resulted in improved academic results This book exposes inequity and provides a warrant for action A must read for policy scholars who want to detect and understand policy inaction educators who want to
