*America* Elaine Tyler May,2017-12-12 An award winning historian argues that America s obsession with security imperils our democracy in this compelling portrait of cultural anxiety Mary L Dudziak author of War Time For the last sixty years fear has seeped into every area of American life Americans own more guns than citizens of any other country sequester themselves in gated communities and retreat from public spaces And yet crime rates have plummeted making life in America safer than ever Why then are Americans so afraid and where does this fear lead to In this remarkable work of social history Elaine Tyler May demonstrates how our obsession with security has made citizens fear each other and distrust the government making America less safe and less democratic *Fortress America* charts the rise of a muscular national culture undercutting the common good Instead of a thriving democracy of engaged citizens we have become a paranoid bunkered militarized and divided vigilante nation **Big Intel** J. Michael Waller,2024-01-16 Big Intel recounts the dramatic story of the rise and Cold War heroics of the CIA and the American intelligence apparatus followed by its unfortunate slide into Marxist influenced Deep State dysfunction as BIG INTEL became BAD INTEL How the Left Subverted the CIA and FBI Once upon a time the FBI

and the CIA fought America's enemies at home and abroad. Now they are tools of a growing police state attacking the left's political enemies and spying on ordinary American citizens even parents who push back against radical public schools. How did we get here? In this revealing and thoroughly documented book, a former CIA operative traces the origins of Big Intel to a loose network of Marxist academic agitators known as the Frankfurt School. Their ideology appealed to the Ivy League elites populating the CIA, but the subversion of the FBI took longer, impeded for a time by the bureau's staunchly anti-Communist director J. Edgar Hoover. Eventually both institutions succumbed, and today Big Intel is controlled by the cultural Marxists. Chronicling the parasitic infiltration of the CIA and FBI, Big Intel shows how normal intelligence functions have given way to political correctness and never-ending pride propaganda, trapping agents in the diversity, equity, and inclusion house of mirrors. Most chilling of all is the emergence of the leftist security state. Big Intel has become Bad Intel. There are hard times ahead, but if Americans remember what freedom once was, we can still defang Big Intel and return our intelligence services to the service of democracy.

*Havana Syndrome* Armin Krishnan, 2025-09-04. Havana Syndrome is most likely caused by unknown types of directed energy weapons, either of the acoustic or electromagnetic variety. The technology for such weapons has been under development since at least the 1960s. The first covert attacks on U.S. diplomats may go back to that time when the phenomenon was called the Moscow Signal. *Havana Syndrome: A Threat to National Security* covers the history of anti-personnel directed energy weapons (DEW) from the Soviet psychotronic weapons that were rumored to exist since the 1970s to the nonlethal weapons developed in the West in the 1980s onward. The book examines the publicly known details of Havana Syndrome and provides some analysis of the U.S. government investigations into Havana Syndrome with respect to what has been declassified. The most likely perpetrators are the Russian or Chinese governments, as some incidents seem to be related to their strategic interests and as both would have the technology to carry out such sophisticated attacks. Havana Syndrome establishes a connection between the Anomalous Health Incidents and what NATO analysts have termed cognitive warfare, to speculate about the true purpose of these mysterious attacks.
