Pdf Mediated Moms Contemporary Challenges Motherhood:

Heading Home Shani Orgad, 2019-01-08 Women in today's advanced capitalist societies are encouraged to lean in. The media and government champion women's empowerment. In a cultural climate where women can seemingly have it all, why do so many successful professional women—lawyers, financial managers, teachers, engineers, and others—give up their careers after having children and become stay-at-home mothers? How do they feel about their decision, and what do their stories tell us about contemporary society? *Heading Home* reveals the stark gap between the promise of gender equality and women's experience of continued injustice. Shani Orgad draws on in-depth personal and profoundly ambivalent interviews with highly educated London women who left paid employment to take care of their children while their husbands continued to work in high-powered jobs. Despite identifying the structural forces that maintain gender inequality, these women still struggle to articulate their decisions outside the narrow cultural ideals that devalue motherhood and individualize success and failure. Orgad juxtaposes these stories with media and policy depictions of women work and family, detailing how even as their experiences fly in the face of fantasies of work-life balance and marriage as an egalitarian partnership, these women continue to interpret and judge themselves according to the ideals that are failing them. Rather than calling for women to transform their feelings and behavior, *Heading Home* argues that we must unmute and amplify women's desire, disappointment, and rage, and demand social infrastructure that will bring about long-overdue equality both at work and at home.

Mediated Moms Heather L. Hundley, Sara E. Hayden, 2016 Images of good mothers saturate the media, yet so too do images of mothers who do not fit this mold. Numerous scholars have addressed bad mothers in the media, arguing that these images are a necessary counterpoint that serves to buttress the good mother myth. The authors in this volume explore how images of mothers have expanded beyond the good-bad dichotomy simultaneously and sometimes paradoxically, serving to reinforce fracture and/or transcend the ideology of good motherhood.

Mediated Maternity Linda Seidel, 2013-05-09 *Mediated Maternity* Contemporary American Portrayals of Bad Mothers in Literature and Popular Culture by Linda Seidel explores the cultural construction of the bad mother in books movies and TV shows arguing that these portrayals typically have the effect of cementing dominant assumptions about motherhood in place or less often of disrupting those assumptions causing us to ask whether motherhood could be constructed differently Portrayals of bad mothers not only help to establish what the good mother is by depicting her opposite but also serve to illustrate what the culture fears about women in general and mothers in particular From the ancient horror of female power symbolized by Medea or more recently by Casey Anthony to the current worry that drug addicted pregnant women are harming their fetuses we see a social desire to monitor the reproductive capabilities of women resulting in more formal and informal surveillance than in material or even moral support *Like Mother, Like Daughter?* Armstrong, Jill, 2019-03-06

Women are encouraged to believe that they can occupy top jobs in society by the example of other women thriving in their careers Who better to be a role model for career success than your mother Paradoxically this book shows that having a mother as a role model even for graduates of top universities does not predict daughters progressing in their own careers It finds that mothers with careers whilst highly influential in their daughters choice of career path rarely mentor their daughters as they progress This is partly explained by quiet ambition the tendency of women to be modest about their achievements Bigger issues are the twin pressures from contemporary motherhood and workplace culture that ironically lead career women s daughters to believe that being a good mother means working part time This stalls career progress Based on a large cross generational qualitative sample this book offers a timely and original perspective on the debate about gender equality in leadership positions **Contemporary Family Law** Susan S. Lane, 2022-04-26 Theologian Erin S Lane overturns dominant narratives about motherhood and inspires women to write their own stories Is it possible to do something more meaningful than mothering As a young Catholic girl who grew up in the American Midwest on white bread and Jesus Erin S Lane was given two options for a life well lived Mother or Mother Superior She could marry a man and mother her own children or she could marry God so to speak and mother the world s children Both were good outcomes for someone else s life Neither would fit the shape of hers Interweaving Lane s story with those of other women including singles and couples stepparents and foster parents the infertile and the ambivalent Someone Other Than a Mother challenges the social scripts that put moms on an impossible pedestal and shame childless women and nontraditional families for not measuring up You may have heard these lines before Motherhood is the toughest job This script diminishes the work of non moms and pressures moms to make parenting their full time gig It ll be different with your own This script underestimates the love of nonbiological kin and pushes unfair expectations onto nuclear families Family is the greatest legacy This script turns children into the ultimate sign of a woman s worth and discounts the quieter ways we leave our mark With candor and verve Someone Other Than a Mother tears up the shaming social scripts that are bad for moms and non moms alike and rewrites the story of a life well lived one in which purpose is bigger than body parts identity is fuller than offspring and legacy is so much more than DNA
