As they mature from lonely and confused children into headstrong adults they still face obstacles but seek to make a difference in a society that often overlooks those who learn differently. religions To what extent have they accepted uncertainty and how have they dealt with sex and women How do individuals cope with religious uncertainty By the end of the book he makes the clear distinction between unknowability reflecting the limitations of our comprehension which we should respect and uncertainty which is more relevant to our day to day experiences which we need to cope with and tolerate For this purpose he proposes models of reality that we could use assessing the extent that they have been helpful and modifying them as necessary He sees this modelism as having general significance and to illustrate this he proposes a radical model for incorporating both women and men into our society a two team approach Tolerance of uncertainty is of fundamental importance to us all Certainty is often problematic and should be viewed with caution
