Einolf, 2016-08-10 This volume overlooks the distinct expressions and awareness of volunteering in the lived reality of people from different regions of the world By casting the net widely this book not only expands the geographic reach of experiences models and case studies but also transcends the conventional focus on formal volunteering It highlights institutional forms of volunteering specific to developing nations and also describes volunteering that is more loosely institutionalized informal and a part of solidarity and collective spirit As a result this book provides a different look at the values meaning acts and expressions of volunteering The chapters in this book consist of essays and case studies that present recent academic research thinking and practice on volunteering Working from the premise that volunteering is universal this collection draws on experiences from Latin America Africa including Egypt and Asia This book focuses on developing countries and countries in transition in order to provide a fresh set of experiences and perspectives on volunteering While developing countries and countries in transition are in the spotlight for this volume the developed country experience is not ignored Rather the essays use it as a critical reference point for comparisons allowing points of convergence disconnect and intersection to emerge

*The Mexican Press and Civil Society, 1940-1976* Benjamin T. Smith, 2018-08-07 Mexico today is one of

the most dangerous places in the world to report the news and Mexicans have taken to the street to defend freedom of expression As Benjamin T Smith demonstrates in this history of the press and civil society the cycle of violent repression and protest over journalism is nothing new He traces it back to the growth in newspaper production and reading publics between 1940 and 1976 when a national thirst for tabloids crime sheets and magazines reached far beyond the middle class As Mexicans began to view local and national events through the prism of journalism everyday politics changed radically Even while lauding the liberty of the press the state developed an arsenal of methods to control what was printed including sophisticated spin and misdirection techniques covert financial payments and campaigns of threats imprisonment beatings and even murder The press was also pressured by media monopolists tacking between government demands and public expectations to maximize profits and by coalitions of ordinary citizens demanding that local newspapers publicize stories of corruption incompetence and state violence Since the Cold War both in Mexico City and in the provinces a robust radical journalism has posed challenges to government forces
