1997 forty five unarmed members of the indigenous organization Las Abejas The Bees were massacred during a prayer meeting in the village of Acteal Mexico The members of Las Abejas who are pacifists pledged their support to the Zapatista Army of National Liberation a primarily indigenous group that has declared war on the state of Mexico The massacre has been attributed to a paramilitary group composed of ordinary citizens acting on their own although eyewitnesses claim the attack was planned ahead of time and that the Mexican government was complicit In Without History Jose Rabasa contrasts indigenous accounts of the Acteal massacre and other events with state attempts to frame the past control subaltern populations and legitimatize its own authority Rabasa offers new interpretations of the meaning of history from indigenous perspectives and develops the concept of a communal temporality that is not limited by time but rather exists within the individual community and culture as a living knowledge that links both past and present Due to a disconnection between indigenous and state accounts as well as the lack of archival materials many of which were destroyed by missionaries the indigenous remain outside of or without history according to most of Western discourse The continued practice of redefining native history perpetuates the subalternization of that history and maintains the specter of fabrication over reality Rabasa recalls the works of Marx Lenin and Gramsci as well as contemporary south Asian subalternists Ranajit Guha and Dipesh Chakrabarty among others He incorporates their conceptions of communality insurgency resistance to hegemonic governments and the creation of autonomous spaces as strategies employed by indigenous groups around the globe but goes further in defining these strategies as millennial and deeply rooted in Mesoamerican antiquity For Rabasa these methods and the continuum of ancient indigenous consciousness are evidenced in present day events such as the Zapatista insurrection

The Labyrinth of North American Identities Philip Resnick,2012-04-25 What exactly does it mean to be North American Europeans have been engaged in a long running debate about the meaning and nature of Europe The Labyrinth of North American Identities generates a similar discussion in the context of North America what do we learn about North America as a unit and its individual countries when we explore the idea of a shared North American identity Combining cultural anthropological historical political economic and religious considerations Philip Resnick acknowledges the relative differences in power and influence of the United States and its North American neighbours but digs deeper to uncover shared characteristics that constitute a labyrinth of North American identities unrestricted by national boundaries To date discussions of North America have largely revolved around the often technical implications of the North American Free Trade Agreement NAFTA or US homeland security What has been lacking by contrast is a culturally driven set of reflections This book examines the legacy of indigenous cultures the role of organized religion pathways to independence the role of imperial languages manifest destiny market capitalism and its

Méndez, 2015-01-15 Ciudad Ju rez has recently become infamous for its murder rate which topped 3 000 in 2010 as competing drug cartels grew increasingly violent and the military responded with violence as well Despite the atmosphere of intimidation by troops police and organized criminals women have led the way in civil society activism spurring the Ju rez Resistance and forging powerful alliances with anti militarization activists An in depth examination of la Resistencia Juarense Courage Resistance and Women in Ciudad Ju rez draws on ethnographic research to analyze the resistance s focus on violence against women as well as its clash with the war against drugs championed by Mexican President Felipe Calder n with the support of the United States Through grounded insights the authors trace the transformation of hidden discourses into public discourses that openly challenge the militarized border regimes. The authors also explore the advocacy carried on by social media faith based organizations and peace and justice activist Javier Sicilia while Calder n faced U S political schisms over the role of border trade in this global manufacturing site Bringing to light on the ground strategies as well as current theories from the fields of sociology political anthropology and human rights this illuminating study is particularly significant because of its emphasis on the role of women in local and transnational attempts to extinguish a hot zone As they overcome intimidation to become game changing activists the figures featured in Courage Resistance and Women in Ciudad Ju rez offer the possibility of peace and justice in the wake of seemingly irreconcilable conflict **Call the Mothers** Shavlih Muehlmann, 2024-09-10 A gripping portrait of the relentless women taking missing persons kidnapping and extortion cases into their own hands and building a movement for one another In this riveting exploration of the lives of mothers whose children are among the 100 000 disappeared in Mexico s war on drugs Shaylih Muehlmann shows how families have mobilized on the ground to get answers and justice It is often mothers who confront government corruption indifference and incompetence by taking on the responsibilities of searching for missing persons and dealing with kidnapping and extortion cases In bringing the voices of these women to the fore Muehlmann demonstrates how the war on drugs affects everyday life in Mexico and how these activists have become detectives forensic specialists and even negotiators with drug traffickers Call the Mothers provides a unique look at a grassroots movement that draws from the symbolic power of motherhood to build a network of collectives that redefine traditional gender roles and challenge injustice and impunity States of Emergency Patrick M.
