

The background of the entire cover is a repeating pattern of the Mexican and United States flags. The Mexican flag, featuring a green field with a white circle in the center containing a golden eagle perched on a cactus, is positioned vertically. The United States flag, with its stars and stripes, is positioned horizontally. These flags are arranged in a grid-like fashion, creating a textured, patriotic backdrop.

Principled Pragmatism in Mexico's Foreign Policy Rafael Velazquez-Flores, 2022-07-16 This book explores Mexico s foreign policy using the principled pragmatism approach It describes and explains main external actions from the country s independence in the nineteenth century to Andr s Manuel L pez Obrador s administration The principal argument is that Mexico has resorted to principled pragmatism due to geographic historical economic security and political reasons In other words the nation uses this instrument to deal with the United States defend national interests appease domestic groups and promote economic growth The key characteristics of Mexico s principled pragmatism in foreign policy are that the nation projects a double edged diplomacy to cope with external and domestic challenges at the same time This policy is mainly for domestic consumption and it is also linked to the type of actors that are involved in the decision making process and to the kind of topics included in the agenda This principled pragmatism is related to the nature of the intention principism is deliberate and pragmatism is forced and this policy is used to increase Mexico s international bargaining power The Oxford Companion to American Politics David Coates, 2012-07-12 Provides students and scholars with a valuable reference
