Revised Recommendations on the Safe Transport of Dangerous Cargoes and Related Activities in Port Areas International Maritime Organization, 2007 Guidance on the safe transport of dangerous cargoes covering oils noxious liquid chemicals and gases carried in bulk solid bulk materials possessing chemical hazards solid bulk materials hazardous only in bulk harmful substances in packaged form and related activities in port areas as part of the transport chain was first circulated by the IMO in 1973 This is the 3rd edition of the guidance which includes a new chapter on security provisions a new annex on fumigation of cargo areas a new glossary of terminology and up to date recommendations for the IMDG Code and other relevant codes      **Year Book 1990** Patricia Dent, 2013-10-22 This comprehensive yearbook is the only compendium in any language of policy scientific and legal developments concerning the occurrence regulation and control of marine pollution

The breadth of scope of the volume reflects the increasing concern at all levels of government scientific enquiry and society with these issues Comprehensive updates of marine related legislation and the activities of a number of international and intergovernmental organisations are included Forewords to each chapter are contributed by prominent politicians and experts in the field of environmental science Over 200 references and numerous tables and illustrations augment the wealth of data within the text including several case studies and coverage of recent conventions In the light of increasing pressure on the marine environment from human activities the yearbook provides a unique contribution to the study of marine pollution worldwide      *Marine Navigation and Safety of Sea Transportation* Adam Weintrit, Tomasz Neumann, 2013-06-04

The TransNav 2013 Symposium held at the Gdynia Maritime University Poland in June 2013 has brought together a wide range of participants from all over the world The program has offered a variety of contributions allowing to look at many aspects of the navigational safety from various different points of view Topics presented and discussed at the Symposium were navigation safety at sea sea transportation education of navigators and simulator based training sea traffic engineering ship s manoeuvrability integrated systems electronic charts systems satellite radio navigation and anti collision systems and many others This book is part of a series of four volumes and provides an overview of Transport and Shipping and is addressed to scientists and professionals involved in research and development of navigation safety of navigation and sea transportation      **Marine Pollution** International Council for the Exploration of the Sea. Advisory Committee on Pollution

of the Sea, 1990      Oil Spill Risks From Tank Vessel Lightering Division on Engineering and Physical Sciences, Ocean Studies Board, Commission on Engineering and Technical Systems, Marine Board, 1998-12-24 The safety record of lightering the transfer of petroleum cargo at sea from a large tanker to smaller ones has been excellent in U S waters in recent years as evidenced by the very low rate of spillage of oil both in absolute terms and compared with all other tanker related accidental spills The lightering safety record is likely to be maintained or even improved in the future as overall quality improvements in the shipping industry are implemented Risks can be reduced even further through measures that enhance sound lightering

standards and practices support cooperative industry efforts to maintain safety and increase the availability of essential information to shipping companies and mariners Only continued vigilance and attention to safety initiatives can avert serious accidents involving tankers carrying large volumes of oil
