The Impact of

Print-On-Demand on Academic Books Suzanne Wilson-Higgins, 2017-11-21 The convergence of online book selling digital printing digital document workflow management and the computerization of small parcel logistics created a unique opportunity to create a viable commercial model for printing and supplying books on demand This innovation was swiftly embraced by the academic publishing community heralding the rescue of the languishing academic monograph The possibilities captured the imagination of creative academic and niche publishers enabling custom publishing student editions of monographs self compiled wiki books and even the establishment of new university presses and open access publishers The Impact of Print on Demand on Academic Books takes an in depth look at this phenomenon by looking back on two decades of innovation reviewing the present state of academic publishing with respect to works being printed on demand and compiling the current forecasts and speculation about the future of academic and niche publishing given the impact of print on demand Presents knowledge on the print on demand industry and chronicles developments and their impact on publishing Provides a useful guide for practitioners and students of publishing and is ideal for academic publishing historians and business academics interested in innovation and digital developments Includes an international perspective with information from Europe North America Australia and Singapore China Chronicles business case studies collected from interviews with key individuals from companies who have shaped or are shaping the academic POD landscape **Proceedings of the International Symposium on Research of Arts, Design and Humanities (ISRADH 2014)** Oskar Hasdinor Hassan, Shahriman Zainal Abidin, Rusmadiyah Anwar, Muhamad Fairus Kamaruzaman, 2015-09-22 This book examines the interaction between art design technology and the social sciences It features 56 papers that were presented at the International Symposium on Research of Arts Design and Humanities ISRADH 2014 held at Sutera Harbour Resort Kota Kinabalu Malaysia Complete with helpful diagrams and tables the papers cover such topics as artificial reef development racial discourse in the social media stoneware as a replacement material for modern ventilation walls and factors contributing to internet abuse in the workplace Overall the coverage focuses on global design trends and demands with an emphasis on people business and technology Inside readers will find information on art and science in industrial applications art management and entrepreneurship cognitive psychological and behavioral science design technology and sustainable development humanities and social applications in quality of life social implications of technology and visual communication and technologies Taking a multi disciplinary approach the book features insightful discussions among academicians and industrial practitioners on the evolution of design that will appeal to researchers designers and students *Academic Textbook Trends* Mason Ross, AI, 2025-02-20 Academic Textbook Trends explores the evolving world of educational resources in higher education moving beyond traditional models It examines how instructors and students adapt to digital learning the rise of open educational resources OER and the impact of cost on student access This academic textbook uniquely analyzes the shift in adoption patterns pricing sensitivities and the integration of digital learning platforms like learning management

systems LMS For example the book looks at how the increasing costs of traditional textbooks are pushing students and faculty toward more affordable learning solutions such as e books and courseware The book approaches the topic by blending quantitative data from publisher reports and student surveys with qualitative insights from faculty interviews It delves into specific areas such as textbook adoption across disciplines and the impact of OER initiatives The book progresses logically beginning with an introduction that sets the stage followed by chapters analyzing data and concluding with implications for the future of textbook development This makes Academic Textbook Trends valuable for educators administrators and publishers seeking to enhance learning outcomes and ensure equitable access to educational materials in a rapidly changing landscape

Research Within the Disciplines Peggy Keeran, 2007 Research lies at the heart of all academic disciplines Research Within the Disciplines Foundations for Reference and Library Instruction is an expansion of that concept The book provides an overview of research practices and literacy standards in the various disciplines humanities music social sciences business government publications engineering and sciences to help shape library instruction and reference assistance Conceived and developed by the reference librarians at the University of Denver the book grew out of team discussions about teaching research and writing within the disciplines The book's main objective is to provide a degree of orientation toward conducting research within specific disciplines and across others The volume includes separate chapters on the broad disciplines covered in undergraduate education as well as concluding chapters addressing interdisciplinary research and the role of instruction as a means of developing effective researchers The continued necessity of understanding the foundations of research whether within the physical library or via the electronic environment remains an underlying concern and the advice put forth by this team of practicing academic librarians is an important step to achieving this goal
