**Developing Web Information Systems** Richard Vidgen, 2002-09-25 Developing Web Information Systems brings together traditional system development methods that have been taught for many years on information systems and computer science courses with web e commerce development It is the first book to bring together IS development and the web applications in a thorough and systematic way There is a running case study that illustrates web IS development from start to finish The case is easy to understand a theatre and results in a working web application Most if not all analysis and design texts fall short of making that step into software The book draws heavily on practical experiences of web based IS development resulting from commercial system development so as well as appealing to students and academics it will also interest practitioners The coverage of data management and e business strategy gives the book the broader scope essential for understanding IS development properly in an Internet context First book to bring together IS development and web applications thoroughly and systematically Covers full development process from strategy through analysis and design to working software Interactive case study which can be accessed on author s website

Information System Adoption  
Truongsinh Tran, Chi-Trung Hoang, 2011-04 SMEs play an important role in economies including Vietnam s The need for ISs is now necessary in every enterprise Most of published studies on information systems have been conducted in developed countries with little in developing or less developed countries From those few there was no one focusing in Vietnam This book examines the experiences of 7 Vietnamese SMEs when they adopted ISs The authors investigated the reasons for the process of and the factors influencing information system adoption The qualitative research method was used to answer research questions Semi structured interviews content analysis and open coding were used as the data collection and

analysis tool to explore participants experiences The analysis resulted in important findings It confirmed some reasons and factors found in the literature concerning information system adoption in Vietnamese small and medium enterprises Despite some similarities the authors found some differences such as government role concerning the information system adoption The results confirmed some factors and reasons but also brought up some new ones We suggest therefore some further studies on those

Internet for promoting small tourist realities Federica Signorini, **Hospitality Management** Eli Sampson, 2018-10-15. Hospitality management is the study of the hospitality industry. The hospitality industry is vast and very diverse. Any time people travel, stay in a hotel, eat out, go to the movies and engage in similar activities, they are patronizing establishments in the hospitality industry. The management of such establishments is very challenging as managers need to be flexible enough to anticipate and meet a wide variety of needs. Hotel Management, as the term suggests, is focused on managing all aspects related to the functioning of a hotel. From the time a guest arrives at a hotel to the time he checks out, the responsibility of all activities during the guest's stay in the hotel forms part of Hotel Management. Hospitality management graduates are highly employable, applying their skills to careers in events, hotel and conference management, sales and business development, and forestry and fishing management. Hospitality management means managing an event or, when referring to managing a hotel, it would mean managing all the different departments and members of staff so that the paying guests feel welcomed and enjoy their stay. It is important that these people know that you are warm and friendly so that they would probably return to the venue again in the future. This book has been developed as an attempt to provide some literature on the vast, growing hotel industry. This text will help immensely those who are desirous of joining the industry to equip themselves with a career in front office, housekeeping, food production, food and beverage service, and tourism.
