Paying For Productivity A Look At The Evidence Studies In Defense Policy:

Brookings at Seventy-Five James Allen Smith, 2010-12-01 The historian James Allen Smith traces the evolution of Washington's oldest and prototypical think tank on the occasion of its seventy fifth anniversary in 1991 Dedicated to bringing expertise to bear on public policy issues Brookings has been a pioneer in bridging the disparate worlds of social science research and American policymaking But while its efforts have been made steady there have been frustrations and controversy over the years Inspired by the scientific management and government efficiency movements in the Progressive Era Brookings has evolved from an organization that consulted with government agencies on accounting and personnel practices into an institution with a wide ranging research and publishing program as well as active public policy education and media outreach efforts Smith vividly tells of the key individuals beginning with Robert Brookings who have shaped the institution He recounts its relationships with financial supporters and presidential administrations and he candidly discusses the problems surrounding efforts at funding Smith places the Brookings research program in an intellectual context and within the changing policymaking environment of Washington He reveals how Brookings has withstood seventy five years of shifts in national politics external perceptions on the institution and internal leadership to emerge as one of the most prominent sources of policy expertise in the world The proliferation of private think tanks and the expansion of governmental research agencies in the past quarter century have changed the policy environment The Brookings Institution on its seventy fifth anniversary offers a singular vantage point from which to observe the ever changing relationship between expert knowledge and political decisionmaking in our democracy

Bringing Forth Prosperity Benjamin Bobo, 2022-09-01 Path to Capacity Innovation An Africa MNC Strategic Alliance a policy framework is advanced proposing a strategic alliance between African countries represented by NEPAD and the multinational corporation with input from the NGO and couched upon an NEPAD MNC NGO cross fertilizing integrative structure Capacity innovation is the key to Africa's transformation with the appropriate catalysts innovation and transformation are but a matter of time in gestation The first of two major catalysts necessary to prompting this change so long sought by Africans came at the adoption of the New Partnership for Africa's Development It is one of the most profound collaborations of African Heads of State The second catalyst is proposed in this work in the form of the multinational corporation as change agent for the innovation process working in alliance with NEPAD as Africa's spokesperson for innovation The policy framework for African capacity innovation is the material product along with discourse for redress of corruption and security policy narrative for protecting the assets of multinational corporations Bringing Forth Prosperity Capacity Innovation in Africa questions capital theory as a development construct and an appropriate platform upon which sustained capacity innovation in Africa may emerge explores Africa's road to modernity in the context of selected development constructs and assesses capacity innovation from a top down bottom up perspective purposely to serve as backdrop to the Africa MNC strategic alliance framework constructs country capacity ID to identify

internal resources available to African countries to support capacity innovation conceptualizes the Africa MNC strategic alliance to convey a capacity innovation philosophy articulates an African capacity innovation policy framework to guide the Alliance through a series of actions designed to prompt innovation activity and set the continent on a course to sustained transformation and articulates a scheme to protect assets human and physical derived through the Africa MNC strategic alliance

The Defence Industrial Strategy Great Britain: Parliament: House of Commons: Defence Committee, 2006-05-10 The defence industrial strategy published in December 2005 Command paper Cm 6697 ISBN 0101669720 Its aim was to provide greater transparency on the UK's future defence requirements and to set out those industrial capabilities the UK needs to maintain appropriate sovereignty and operate equipment independently The Committee praises the production of the strategy to a tight timetable and with wide consultation The strategy has been well received by industry In the future there will be more focus on upgrading and maintaining platforms rather than designing and building new equipment The Committee wants the Ministry of Defence MoD to continue improvements in the procurement process and to give more information about future requirements Investment in research and technology needs to increase or the result will be lower quality defence equipment The MoD also needs to develop a greater understanding of the vital role of small and medium sized enterprises in the supply chain Competitive procurement will not always be possible in some areas where there is only a single company with the capacity and capability to deliver the MoD's requirements The Committee expresses concerns about the planned use of long term partnering arrangements seeing the risk of possible monopoly supply and lack of access of other companies to sub contract work
