Book Affluent Society Revisited Mike Berry:

The Affluent Society Revisited Mike Berry, 2013-12-12 This book revisits John Kenneth Galbraith's classic text *The Affluent Society* in the context of the background to and causes of the global economic crisis that erupted in 2008. Each chapter takes a major theme of Galbraith's book, distils his arguments, and then discusses to what extent they cast light on current developments both in developed economies and in the economics discipline. The themes include inequality, insecurity, inflation, debt, consumer behaviour, financialization, the economic role of government, social balance, the power of ideas, the role of power in the economy, and the nature of the good society. It considers the current problems of capitalism and the huge challenges facing democratic governments in tackling them. Written in non-technical language, this book is accessible to students of economics and the social sciences as well as to those who would have read *The Affluent Society* and the general reader interested in contemporary affairs and public policy.

Histories of Knowledge in Postwar Scandinavia Johan Östling, Niklas Olsen, David Larsson Heidenblad, 2020-06-04 *Histories of Knowledge in Postwar Scandinavia* uses case studies to explore how knowledge circulated in the different public arenas that shaped politics, economics, and cultural life in and across postwar Scandinavia, particularly in the 1960s and 1970s. This book focuses on a period when the term 'knowledge society' was coined and rapidly found traction. In Scandinavia, society's relationship to rational forms of knowledge became vital to the self-understanding and political ambitions of the era. Taking advantage of contemporary discussions about the circulation, arenas, forms, applications, and actors of knowledge, contributors examine various forms of knowledge: economic, environmental, humanistic, religious, political, and sexual, that provide insight into the making and functioning of postwar Scandinavian societies and offer innovative studies that contribute to the development of the history of knowledge at large. The concentration on knowledge rather than the welfare state, the Cold War, or the new social and political movements, which to date have attracted the lion's share of scholarly attention, ensures the book makes a historiographical intervention in postwar Scandinavian historiography. Offering a stimulating point of departure for those interested in the history of knowledge and the circulation of knowledge, this is a vital resource for students and scholars of postwar Scandinavia that provides fresh perspectives and new methodologies for exploration.

Property, Institutions, and Social Stratification in Africa Franklin Obeng-Odoom, 2020-03-26 In this book, Franklin Obeng-Odoom seeks to debunk the existing explanations of inequalities within Africa and between Africa and the rest of the world using insights from the emerging field of stratification economics. Using multiple sources, including archival and historical material and a wide range of survey data, he develops a distinctive approach that combines traditional institutional economics, such as social protection and reasonable value, property, and the distribution of wealth, with other insights into Africa's development. While looking at the Africa-wide situation, Obeng-Odoom also analyses the experiences of inequalities within specific countries; he primarily focuses on Ghana while also drawing on experiences in Botswana and Mauritius. Comprehensive and engaging, *Property, Institutions, and Social*

Stratification in Africa is a useful resource for teaching and research on Africa and the Global South *Morality and Power* Mike Berry, 2017-08-25 Offering a compelling critique of orthodox economic analysis in the public realm Mike Berry exposes the lack of development in economic thinking in public policy since the economic crisis of 2008 Focusing on both the ethically unacceptable outcomes of recent public policy and the threat of populism and rising nationalism this book offers noteworthy suggestions for an alternative social democratic future Both students and practitioners of heterodox economics and public policy will find this a compelling insight into the ethical concerns and social impacts raised by the political ascendancy of neoliberal policies in recent decades *A Theory of Housing Provision under Capitalism* Mike Berry, 2023-04-20 This book provides the first coherent Marxist analysis of the central importance of housing in the social reproduction of capitalism as a whole Rather than consigning housing to the sidelines Berry argues that the circulation of capital and revenues through housing and the built environment helps explain how the capital labour relation constrains housing outcomes while also being reproduced on an extended scale He shows how housing is provided by the intervention of building property and interest bearing capital fractions how the land question can be explained by a theory of urban land rent drawing on Marx's categories of differential and monopoly rent how housing is vital to the extended reproduction of labour power while also creating a semi separate sphere of home in which gender and demographic factors overlay and accentuate social class position The modes impact and drivers of state intervention in housing provision are seen to modify the patterns and pace of capital circulation through housing and the urban built environment with implications for shifts in class fragmentation and power relations *Justice and Democracy* Mike Berry, 2021-06-25 This visionary book seeks to uncover the main barriers to achieving greater social justice in existing twenty first century capitalism Developing a comprehensive consequentialist theory of justice applied to today's global situation Mike Berry adopts the thesis that in order to move towards a more just world the weaknesses of liberal democracy must be overcome through reconstructing robust resilient social democracies

Transnational Australian Cinema Olivia Khoo,Belinda Smaill,Audrey Yue,2013-03-08 To date there has been little sustained attention given to the historical cinema relations between Australia and Asia This is a significant omission given Australia s geo political position and the place Asia has held in the national imaginary oscillating between threat and opportunity Many accounts of Australian cinema begin with the 1970s film revival placing Asian Australian cinema within a post revival schema of multicultural or diasporic cinema and ignoring Asian Australian connections prior to the revival *Transnational Australian Cinema* charts a history of Asian Australian cinema encompassing the work of diasporic Asian filmmakers films featuring images of Asia and Asians films produced by Australians working in Asia s film industries or addressed at Asian audiences and Asian films that use Australian resources including locations and personnel Utilizing an interdisciplinary approach the book considers diasporic Asian histories the impact of government immigration and film policies on representation and the new aesthetic styles and production regimes created by filmmakers who have forged links both through roots and routes with Asia This expanded history of Asian Australian cinema allows for a renewed discussion of so called dormant periods in the nation s film history In this respect the mapping of an expanded history of cinema practices contributes to our broader aim to rethink the transnationalism of Australian cinema **Transactions of the Huguenot**
