List Of Verses Of Jihad:

Moon-o-theism, Volume II of II Yoel Natan, 2006 This is volume two of a two volume study of a war and moon god religion that was based on the Mideast moon god religion of Sin *The Taliban Reader* Alex Strick van Linschoten, Felix Kuehn, 2018-07-01 Who are the Taliban Are they a militant movement Are they religious scholars The fact that these and other questions are still raised with frequency is testimony to the way the movement has been studied often at arm s length and with scant use of primary sources The Taliban Reader forges a new path bringing together an extensive range of largely unseen sources in a guide to the Afghan Islamist movement from a unique insider perspective Ideal for students journalists and scholars alike this book is the result of an unprecedented decade long effort to encourage the emergence of participant centered accounts of Afghan history This ground breaking collection ranging from news articles and opinion pieces to online publications and poems transcribed by hand in the field sets the stage for a recalibration of how we understand and study the Afghan Taliban It challenges researchers to forge new norms in the documentation of conflict and provides insight into the future trajectory of political Islamism in South Asia and the Middle East **Just Wars, Holy Wars, and Jihads** Sohail H. Hashmi, 2012-07-03 Just Wars Holy Wars and Jihads explores the development of Christian Muslim and Jewish thinking on just war holy war and jihad over the past fourteen centuries **The Ideologue** JOE Khoury, Ph.D., 2015-09-28 This book is about documenting the transformation of the United States under the Obama policies and the ideological premises of that transformation The book makes clear that policy considerations under Obama were defined in terms of his ideological disposition instead of what is necessarily in the best interest of the country His left wing disposition left little room for cost benefit analysis and for policies emerging from a true national dialogue Obama Care was made into law without a single Republican vote Much of the proposed legislations passed by the House of Representative were shelved by the Democrat Senate Race relations became worse under his administration as he preferred to interfere in every case involving African Americans while ignoring compelling facts His decision on the Keystone Pipeline is illustrative of an appeasement policy for the left instead of one that produces jobs and energy independence for the United States The book synthesizes the ideological foundation of numerous policies that were driven by President Obama s extreme liberalism in order to keep the base of the Democratic Party and major liberal donors in toe Many of his policy choices were achieved by extraconstitutional methods such as Executive Orders and congressional paralysis instituted by Harry Reid Meanwhile the ranks of the poor the underemployed the too discouraged to seek employment and those receiving food stamps rose at historical levels Despite the most optimistic promises President Obama made the US recovery continued anemic The book will provoke much discussion and perhaps strong disagreements and perhaps applause It should therefore contribute to the vibrancy of our democracy and to the solidity of our constitution Western Foreign Fighters Phil Gurski, 2016-12-08 A number of recent terrorist attacks were committed by young men and women who had radicalized went to train with IS in the Middle East then returned to

their home country to commit acts of violence In this text Phil Gurski examines why some people decide to abandon their homeland to join terrorist groups and whether they pose a significant threat to their societies if they survive and return The focus is on Canadians and other Westerners who see violent Jihad as divine obligation with the intention to challenge the view that foreign fighters are all brainwashed The book first looks at state motivation for resorting to conflict and the nature of war including Jihad It then discusses why Westerners volunteered to join the military in past wars to offer points of comparison before focusing on why some are now going to Iraq and Syria to fight along groups such as Islamic State This includes a thorough discussion of the increasing participation of women and the debates among extremists on whether they can engage in warfare Lastly the threat posed by radicalized fighters when they return home after either training or waging war abroad is examined in detail along with what is done to prevent and counter it Written in an accessible manner by a reputed expert on terrorism and radicalization the text will appeal to anyone seeking to understand why people join terrorist groups and the threats they represent to their homeland
