Graham,Stephan G. Humer,Claire Seungeun Lee,Veronika Nagy,2024-09-16 Covering a wide range of different online platforms including social media sites and chatrooms this volume is a comprehensive exploration of the current state of sociological and criminological scholarship focused on online deviance Understanding deviance broadly the handbook acknowledges both an objective normative approach and a subjective reactivist approach to the topic putting into sharp relief the distinctions between cybercrime and online deviance on the one hand and wider concerns of online communities related to online deviance on the other Divided into five sections the first section is devoted primarily to scholarship about the theories and methods foundational to exploring online deviance The second section Gender Sex and Sexuality presents empirical research on expressions of gender sex and sexuality in online spaces considered deviant The third section Violence and Aggression highlights scholarship on types of violent

communications such as hate speech and cyberstalking The fourth section Communities and Culture describes empirical research on online communities and networks that can be described as deviant by wider society Lastly the fifth section Regional Perspectives highlights research in which a terrestrial location is impactful to the online phenomena studied Providing a window into future scholarship over the next several years and acknowledging the ephemeral nature of research on digital technology The Routledge International Handbook on Online Deviance is essential reading for students and scholars of Criminology and Sociology focused on deviant online behaviour It will also appeal to those working in related areas within Internet Digital Studies Media Communication Studies Psychology and Cybersecurity The Information Nexus Steven G. Marks,2016-07-25 Capitalism is central to our understanding of contemporary economic and political life and yet what does it really mean If as has now been shown to be the case capital and property rights existed in pre modern and pre capitalist societies what is left of our understanding of capitalism Steven G Marks provocative new book calls into question everything we thought we knew about capitalism from the word s very origins and development to the drivers of Western economic growth Ranging from the Middle Ages to the present The Information Nexus reveals that the truly distinctive feature of capitalism is business s drive to acquire and analyze information supported by governments that allow unfettered access to public data This new interpretation of capitalism helps to explain the rise of the West puts our current information age into historical perspective and provides a benchmark for the comparative assessment of economic systems in today s globalized environment **Sport in Korea** Eunha Koh,2024-12-11 With growing interest in Korean sports and its social significance from academia and in public Sport in Korea Culture Politics and Policy brings together research on social cultural and political aspects of Korean sports today **Proceedings of 8th Edition of International Conference on Big Data & Data Science 2019** Euroscicon,2019-02-24 March 04 05 2019 Barcelona Spain Key Topics Big Data Analytics Big Data Algorithms Big Data In Bioinformatics Data Mining With Big Data Visualization In Big Data Big Data In Neural Network For Deep Learning High Performance Computing For Big Data Machine Learning In Data Science Open Science In Big Data Hadoop Map Reduce For Analyzing Information Regression In Data Science Big Data Applications **Meta-Heuristic Algorithms for Advanced Distributed Systems** Rohit Anand,Abhinav Juneja,Digvijay Pandey,Sapna Juneja,Nidhi Sindhwani,2024-04-02 META HEURISTIC ALGORITHMS FOR ADVANCED DISTRIBUTED SYSTEMS Discover a collection of meta heuristic algorithms for distributed systems in different application domains Meta heuristic techniques are increasingly gaining favor as tools for optimizing distributed systems generally to enhance the utility and precision of database searches Carefully applied they can increase system effectiveness streamline operations and reduce cost Since many of these techniques are derived from nature they offer considerable scope for research and development with the result that this field is growing rapidly Meta Heuristic Algorithms for Advanced Distributed Systems offers an overview of these techniques and their applications in various distributed systems With strategies based on both global and local searching it covers a wide

range of key topics related to meta heuristic algorithms Those interested in the latest developments in distributed systems will find this book indispensable Meta Heuristic Algorithms for Advanced Distributed Systems readers will also find Analysis of security issues distributed system design stochastic optimization techniques and more Detailed discussion of meta heuristic techniques such as the genetic algorithm particle swam optimization and many others Applications of optimized distribution systems in healthcare and other key industries Meta Heuristic Algorithms for Advanced Distributed Systems is ideal for academics and researchers studying distributed systems their design and their applications **Innovations and Social Media Analytics in a Digital Society** Maria José Sousa,Célio Gonçalo Marques,2022-06-15 Recent advances in digitization are transforming healthcare education tourism information technology and some other sectors Social media analytics are tools that can be used to measure innovation and the relation of the companies with the citizens This book comprises state ofthe art social media analytics and advanced innovation policies in the digitization of society The number of applications that can be used to create and analyze social media analytics generates large amounts of data called big data including measures of the use of the technologies to develop or to use new services to improve the quality of life of the citizens Digitization has applications in fields from remote monitoring to smart sensors and other devices Integration generates data that need to be analyzed and visualized in an easy and clear way that will be some of the proposals of the researchers present in this book This volume offers valuable insights to researchers on how to design innovative digital analytics systems and how to improve information delivery remotely **Invisible Search and Online Search Engines** Jutta Haider,Olof Sundin,2019-03-04 Invisible Search and Online Search Engines considers the use of search engines in contemporary everyday life and the challenges this poses for media and information literacy Looking for mediated information is mostly done online and arbitrated by the various tools and devices that people carry with them on a daily basis Because of this search engines have a significant impact on the structure of our lives and personal and public memories Haider and Sundin consider what this means for society whilst also uniting research on information retrieval with research on how people actually look for and encounter information Search engines are now one of society s key infrastructures for knowing and becoming informed While their use is dispersed across myriads of social practices where they have acquired close to naturalised positions they are commercially and technically centralised Arguing that search searching and search engines have become so widely used that we have stopped noticing them Haider and Sundin consider what it means to be so reliant on this all encompassing and increasingly invisible information infrastructure Invisible Search and Online Search Engines is the first book to approach search and search engines from a perspective that combines insights from the technical expertise of information science research with a social science and humanities approach As such the book should be essential reading for academics researchers and students working on and studying information science library and information science LIS media studies journalism digital cultures and educational sciences **The Global Community Yearbook of**

International Law and Jurisprudence 2018 Giuliana Ziccardi Capaldo,2019-08-16 The Global Community Yearbook is a one stop resource for all researchers studying international law generally or international tribunals specifically The Yearbook has established itself as an authoritative source of reference on global legal issues and international jurisprudence It includes analysis of the most significant global trends in a way that allows readers to monitor the development of the global legal order from several perspectives The Global Community Yearbook publishes annually in a volume of carefully chosen primary source material and corresponding expert commentary The general editor Professor Giuliana Ziccardi Capaldo employs her vast expertise in international law to select excerpts from important court opinions and to choose experts from around the world to contribute essay guides which illuminate those cases Although the main focus is recent case law from the major international tribunals and regional courts the first four parts of each year s edition features expert articles by renowned scholars who address broader themes in current and future developments in international law and global policy themes that appear throughout the case law of the many courts covered by the series as a whole The Global Community Yearbook has thus become not just an indispensable window to recent jurisprudence the series now also serves to prepare researchers for the issues facing emerging global law The 2018 edition both updates readers on the important work of long standing international tribunals and introduces readers to more novel topics in international law The Yearbook continues to provide expert coverage of the Court of Justice of the European Union and diverse tribunals from the International Court of Justice ICJ to criminal tribunals such as the International Criminal Court ICC and the Tribunals for the Former Yugoslavia and Rwanda to economically based tribunals such as ICSID and the WTO Dispute Resolution panel This edition contains original research articles on the development and analysis of the concept of global law and the views of the global law theorists such as whether the Paris Declaration of 2017 and the Oslo Recommendation of 2018 deals with enhancing their institutions legitimacy how to reconcile human rights trade law intellectual property investment and health law with the WTO dispute settlement panel upholding Australia s tobacco plain packaging measure Israel s acceptance of Palestinian statehood contingent upon prior Palestinian demilitarization is potentially contrary to pertinent international law and a proposal to strengthen cooperation between the ECJ and National Courts in light of the failure of the dialogue between the ECJ and the Italian Constitutional Court on the interpretation of Article 325 of the Treaty on the Functioning of the European union The Yearbook provides students scholars and practitioners alike a valuable combination of expert discussion and direct quotes from the court opinions to which that discussion relates as well as an annual overview of the process of cross fertilization between international courts and tribunals The Yearbook provides students scholars and practitioners alike a valuable combination of expert discussion and direct quotes from the court opinions to which that discussion relates as well as an annual overview of the process of cross fertilization between international courts and tribunals and a section focusing on the thought of leading international law scholars on the subject of the globalization This publication can also be purchased on a
