Online Managing Integration Public Advances Administration:

Social Equity and Public Management Theory Kimberly Wiley, Sarah Young, Denita Cepiku, 2024-06-27 Social equity is a pillar of public service. Thus social equity should be a central concern in public management in practice and scholarship. However, widespread incorporation and reflection of social equity practices in government and the anticipated public benefits still seem like an elusive goal. The ability to analytically assess social equity is the first step toward prescribing social equity reforms. This book highlights international research that leverages public management theory to build reasonable social equity measures and applications. Composed to provide insight into the intersections of public management and social equity from multiple lenses, each chapter presents the empirical context in which the study takes place, including global region, government structure, and cultural insights related to the analysis. The chapters conclude with takeaways for public managers to consider in program and policy implementation as well as with innovations for future public administration, public management, and social equity scholarship. Within these takeaways, methodological insights offer tools for scholars to incorporate in their measurement and analysis of social equity in the context of public management. The research highlighted in the text includes studies from across countries in North and South America, Europe, Southeast Asia, and Australia. This is the first book that connects public management theory and practice with social equity reforms. *Advanced Topics in Global Information Management, Volume 5* Hunter, M. Gordon, Tan, Felix B., 2006-04-30 *Advanced Topics in Global Information Management* is a series of books that examine global information management (GIM) and its research and implications. GIM research continues to progress, with some scholars pushing the boundaries of thinking and others challenging the status quo. *Advanced Topics in Global Information Management Volume 5* is a part of this series. *Advanced Topics in Global Information Management Volume 5* discusses how many businesses exist in a global environment. Whether they are large or small companies, they may have suppliers or customers that reside in different geographical locations. The ability to function in this global environment has been facilitated by the use of information technology. Through research projects, this book addresses the ability of both large and small business and government from the national level to local level to function in altered environments by using information technology. In all of these situations, both businesses and governments must be able to function and respond to various stakeholders by adopting the appropriate and necessary cultural perspective. *Proceedings of the 25th International Symposium on Advancement of Construction Management and Real Estate* Xinhai Lu, Zuo Zhang, Weisheng Lu, Yi Peng, 2021-10-11 This proceedings book focuses on innovation, cooperation, and sustainable development in the fields of construction management and real estate. The book provides a detailed analysis and description of the disciplinary frontiers in the field of building management and real estate and how they can be promoted in the context of the epidemic. A wide variety of papers provide a reference value for both scholars and practitioners. The proceedings book is the documentation of the 25th International Symposium on Advancement of
