deciding which way to lean on the issue **American Memory Hole** Donald Jeffries,2024-08-27 Donald Jeffries takes another deep dive down the historical rabbit holes with American Memory Hole How the Court Historians Promote Disinformation You will discover how cancel culture was born during the administration of Franklin D Roosevelt And how our interventionist foreign policy was established during the Woodrow Wilson presidency Jeffries documents the tragically common atrocities committed by US troops beginning with the Mexican American War which became official policy under the total war and scorched earth strategy of Abraham Lincoln s bloodthirsty generals He recounts the shocking abuses of our military forces in countries like Mexico Haiti the Philippines and elsewhere Jeffries builds on his groundbreaking investigation into the murder of John F Kennedy Jr uncovering even more evidence of conspiracy and cover up He talked to people no researcher has talked to before in a powerful new section on the assassination of President John F Kennedy Jeffries explores the Kennedy family in general and finds that the establishment especially the Left continues to treat them unfairly The events of September 11 2001 and the Oklahoma City Bombing are investigated in depth as never before There is stunning new information on much maligned Senator Joseph McCarthy who emerges here not as some irredeemable monster but as a genuine American patriot who has been demeaned in death even more than he was in life The reader will never look at the supposed heroes and villains of American history the same way again after reading this book History is written by the victors **Overcoming Passive-Aggression, Revised Edition** Tim Murphy,Loriann Oberlin,2016-10-25 In Overcoming Passive Aggression Dr Tim Murphy and Loriann Hoff Oberlin provide an in depth look at a topic we ve all faced but haven t always recognized Hidden anger When people don t express their views and feel compelled to conceal their true beliefs and emotions behaving in ways that don t match what they honestly think there can be serious physical and psychological results for everyone involved For the first time Murphy and Oberlin offer a clear definition of passive aggression and show readers not only how to end the behavior but also how to avoid falling victim to other people s hidden anger In clear compassionate language they cover everything from the childhood origins of the condition to the devastating effect it has on work and personal relationships to the latest research on the subject and offer practical proven strategies for the angry person as well as the individual who finds himself the target of someone else s passive aggression The Political Determinants of Health Daniel E. Dawes,2020-03-24 How do policy and politics influence the social conditions that generate health outcomes Reduced life expectancy worsening health outcomes health inequity and declining health care options these are now realities for most Americans However in a country of more than 325 million people addressing everyone s issues is challenging How can we effect beneficial change for everyone so we all can thrive What is the great equalizer In this book Daniel E Dawes argues that political determinants of health create the social drivers including poor environmental conditions inadequate transportation unsafe neighborhoods and lack of healthy food options that affect all other dynamics of health By understanding these determinants their origins and their impact on the equitable distribution of opportunities and resources

we will be better equipped to develop and implement actionable solutions to close the health gap Dawes draws on his firsthand experience helping to shape major federal policies including the Affordable Care Act to describe the history of efforts to address the political determinants that have resulted in health inequities Taking us further upstream to the underlying source of the causes of inequities Dawes examines the political decisions that lead to our social conditions makes the social determinants of health more accessible and provides a playbook for how we can address them effectively A thought provoking and evocative account that considers both the policies we think of as health policy and those that we don't The Political Determinants of Health provides a novel multidisciplinary framework for addressing the systemic barriers preventing the United States from becoming the healthiest nation in the world Suspended Sentence Janice

Against the Wind Neal Gabler, 2023-11-21 New York Times Book Review Editors' Choice From the author of Catching the Wind comes the second volume of the definitive biography of Ted Kennedy and a history of modern American liberalism Magisterial an intricate astute study of political power brokering comparable to Robert A. Caro's profile of Lyndon Johnson in Master of the Senate Publishers Weekly starred review Against the Wind completes Neal Gabler's magisterial biography of Ted Kennedy but it also unfolds the epic tragic story of the fall of liberalism and the destruction of political morality in America With Richard Nixon having stilled the liberal wind that once propelled Kennedy's and his fallen brothers' political crusades Ted Kennedy faced a lonely battle As Republicans pressed Reaganite dogmas of individual freedom and

responsibility and Democratic centrists fell into line Kennedy was left as the most powerful voice legislating on behalf of those society would neglect or punish the poor the working class and African Americans Gabler shows how the fault lines that cracked open in the wake of the Civil Rights movement and Vietnam were intentionally widened by Kennedy s Republican rivals to create a moral vision of America that stood in direct opposition to once broadly shared commitments to racial justice and economic equality Yet even as he fought this shift Ted Kennedy s personal moral failures in this era the endless rumors of his womanizing and public drunkenness and his bizarre behavior during the events that led to rape accusations against his nephew William Kennedy Smith would be used again and again to weaken his voice and undercut his claims to political morality Tracing Kennedy s life from the wilderness of the Reagan years through the compromises of the Clinton era from his rage against the craven cruelty of George W Bush to his hope that Obama would deliver on a lifetime of effort on behalf of universal health care Gabler unfolds Kennedy s heroic legislative work against the backdrop of a nation grown lost and fractured In this outstanding conclusion to the saga that began with *Catching the Wind* Neal Gabler offers his inimitable insight into a man who fought to keep liberalism alive when so many were determined to extinguish it Against the Wind sheds new light both on a revered figure in the American Century and on America s current existential crisis

Unequal Cities Maureen R. Benjamins, Fernando G. De Maio, 2021-09-07 Across the United States Black people have shorter life expectancies than white people reflecting structural racism and deep rooted drivers of population health But are some cities more equal than others The elimination of racial and ethnic inequities differences that are avoidable unnecessary and unfair has been one of the overarching health related goals of the United States for decades Yet dramatic differences in health outcomes between Black people and white people persist rooted in structural and social determinants of health

Nationally a Black baby can expect to live four years less than a white baby But mortality outcomes and inequities vary widely across cities In Washington DC for example the average life expectancy for Blacks is twelve years less than that of whites But in other cities mortality differences between races are less striking or nonexistent If health equity can be achieved in some cities why not all This is arguably the most important health equity issue of our time In *Unequal Cities* Maureen R Benjamins and Fernando G De Maio gather a team of experts to explore these racial inequities as well as the ten year gap in life expectancy between our healthiest and unhealthiest big cities Rigorous analyses give readers access to previously unavailable data on life expectancy mortality from leading causes of death and related Black white inequities for the country's 30 biggest cities The theoretically grounded essays also explore how characteristics of cities including their levels of income inequality and racial segregation impact overall health and Black white inequities The first book to specifically examine racial health inequities within and across US cities *Unequal Cities* offers a social justice framework for addressing the newly identified inequities as well as specific case studies to help public health advocates civic leaders and other stakeholders envision the steps needed to improve their cities current health outcomes and achieve racial equity A powerful call to action for health equity advocates and city leaders alike this book is essential reading Contributors David Ansell Darlene Oliver Hightower Jana Hirschtick Sharon Homan Ayesha Jaco Emily LaFlamme Brittney S Lange Maia Kristin Monnard Nikhil G Prachand Pamela T Roesch Michael Rozier Nazia Saiyed Eve Shapiro Abigail Silva Veenu Verma the West Side United Metrics Working Group Ruqaiijah Yearby
