Haiku Mind Patricia Donegan, 2010-10-12 A collection of 108 haiku poems to heighten awareness and deepen our appreciation for the ordinary in everyday life Haiku the Japanese form of poetry written in just three lines can be miraculous in its power to articulate the profundity of the simplest moment and for that reason haiku can be a useful tool for bringing us to a heightened awareness of our lives Here the poet Patricia Donegan shares her experience of the haiku form as a way of insight that anyone can use to slow down and uncover the beauty of ordinary moments She presents 108 haiku poems on themes such as honesty transience and compassion and offers commentary on each as an impetus to meditation and as a key to unlocking the wonder in what we find right before us

The Art of Haiku Stephen Addiss, 2022-11-29 In the past hundred years haiku has gone far beyond its Japanese origins to become a worldwide phenomenon with the classic poetic form growing and evolving as it has adapted to the needs of the whole range of languages and cultures that have embraced it This proliferation of the joy of haiku is cause for celebration but

it can also compel us to go back to the beginning to look at haiku's development during the centuries before it was known outside Japan. This in-depth study of haiku history begins with the great early masters of the form like Basho, Buson, and Issa and goes all the way to twentieth-century greats like Santoka. It also focuses on an important aspect of traditional haiku that is less known in the West: haiku art. All the great haiku masters created paintings called haiga or calligraphy in connection with their poems, and the words and images were intended to be enjoyed together, enhancing each other and each adding its own dimension to the reader's and viewer's understanding. Here one of the leading haiku scholars of the West takes us on a tour of haiku poetry's evolution, providing along the way a wealth of examples of the poetry and the art inspired by it.

The Columbia Anthology of Modern Japanese Literature J. Thomas Rimer, Van C. Gessel, 2005-04-13 This comprehensive anthology collects works of fiction, poetry, drama, and essay writing from a pivotal time in Japanese history. In addition to their literary achievements, the texts reflect the political, social, and intellectual changes that occurred in Japanese society during this period, including exposure to Western ideas and literature, the rise of nationalism, and the complex interaction of traditional and modern forces. The volume offers outstanding, often new translations of classic texts by such celebrated writers as Nagai Kafu, Shimazaki Toson, Natsume Soseki, Kawabata Yasunari, and Yosano Akiko. The editors have also unearthed works from lesser-known women writers, many of which have never been available in English. Organized chronologically and by genre within each period, the volume reveals the major influences in the development of modern Japanese literature: the Japanese classics themselves, the example of Chinese poetry, and the encounter with Western literature and culture. Modern Japanese writers reread the classics of Japanese literature, infused them with contemporary language, and refashioned them with an increased emphasis on psychological elements. They also reinterpreted older aesthetic concepts in light of twentieth-century mentalities. While modern ideas captured the imagination of some Japanese writers, the example of classical Chinese poetry remained important for others. Meiji writers continued to compose poetry in classical Chinese and adhere to a Confucian system of thought. Another factor in shaping modern Japanese literature was the example of foreign works, which offered new literary inspiration and opportunities for Japanese readers and writers. Divided into four chapters, the anthology begins with the early modern texts of the 1870s, continues with works written during the years of social change preceding World War I and the innovative writing of the interwar period, and concludes with texts from World War II. Each chapter includes a helpful critical introduction situating the works within their literary, political, and cultural contexts. Additionally, there are biographical introductions for each writer.

For All My Walking Santoka Taneda, 2003-11-12 In April 1926, the Japanese poet Taneda Santoka (1882-1940) set off on the first of many walking trips, journeys in which he tramped thousands of miles through the Japanese countryside. These journeys were part of his religious training as a Buddhist monk, as well as literary inspiration for his memorable and often painfully moving poems. The works he wrote during this time comprise a record of his quest for spiritual enlightenment. Although Santoka was master of

conventional style haiku which he wrote in his youth the vast majority of his works and those for which he is most admired are in free verse form He also left a number of diaries in which he frequently recorded the circumstances that had led to the composition of a particular poem or group of poems In *For All My Walking* master translator Burton Watson makes Santoka's life story and literary journeys available to English speaking readers and students of haiku and Zen Buddhism He allows us to meet Santoka directly not by withholding his own opinions but by leaving room for us to form our own Watson's translations bring across not only the poetry but also the emotional force at the core of the poems This volume includes 245 of Santoka's poems and of excerpts from his prose diary along with a chronology of his life and a compelling introduction that provides historical and biographical context to Taneda Santoka's work
