Tolkien to Terry Pratchett and Tad Williams Stefanie Schult, 2017-01-26 The doctoral thesis argues that the term Subcreation with its revised and broadened definition in part differing from J R R Tolkien s original term sub creation may be used for the discussion of the making of fictional worlds in literary discourse The successful conception of a fictional world depends on the reader s willing suspension of disbelief This depends both on the author and his skilled composition of the world and all its aspects as

well as on the reader's acceptance of this invented fictional world. The author needs to create a narrative with an inner consistency which is crucial to achieving the effect of the reader's immersion in the fictional world. The fundamental aspects that an author needs to realize to achieve successful Subcreation have been structured into and analysed in four categories: Language and Linguistic Variation, Physiopoeia, Anthropoeia, and Mythopoeia. Furthermore, this thesis shows that as contemporary examples of fantastic literature, both Tad Williams's and Terry Pratchett's fictional worlds are successfully created through the realization of these aspects of Subcreation. Apart from commenting on the success of the subcreative process, this thesis also remarks upon the cultural influences both authors include in their writings. While both may be considered Anglophone in a general categorization, Pratchett's Discworld retains a feeling of Britishness that is not to be found in Williams's Otherland. The thesis proposes several approaches to Subcreation that may be studied subsequently. So, for example, it may be possible to determine the success of an author's Subcreation by collecting empirical data. Apart from literary works, this field of studies may also include other media.

*Academia and Higher Learning in Popular Culture* Marcus K. Harmes, Richard Scully, 2023-07-24. This edited volume focuses on the cultural production of knowledge in the academy as mediated or presented through film and television. This focus invites scrutiny of how the academy itself is viewed in popular culture, from The Chair to Terry Pratchett's Unseen University and Doctor Who's Time Lord Academy, among others. Spanning a number of genres and key film and television series, the volume is also inherently interdisciplinary, with perspectives from History, Cultural Studies, Gender Studies, STEM, and more. This collection brings together leading experts in different disciplines and from different national backgrounds. It emphasises that even at a point of mass global participation in higher education, the academy is still largely mediated by popular culture and understood through the tropes perpetuated via a multimedia landscape.
