Moving Millions An Inside Look At Mass Transit:

Moving Millions Stan Fischler,1979 **In Transit** Joshua Benjamin Freeman,1989 **Housing and Planning References** ,1980 **Extractives, Manufacturing, and Services** David O. Whitten,1997-04-22 The second volume in the Handbook of American Business History series this book offers concise histories of extractive manufacturing and service industries as well as extensive bibliographic essays pointing to the leading sources on each industry and bibliographic checklists Supplementing other bibliographic materials in business history this volume provides researchers with a much needed path through the vast array of material available in the library and on the Internet Indicating which resources to check and which to bypass the book is a guide to a sometimes overwhelming amount of information Each of the book s chapters provides a concise industry history beginning with the industry s rise to importance in the U S and continuing to the present The bibliographic essays provide a narrative outline of the leading sources published or made available in archives libraries or museum collections since 1971 when Lovett s American Economic and Business History Information Sources was published Each discussion concludes with a bibliographic checklist of the titles mentioned in the essay as well as other titles In a rapidly expanding information society researchers teachers and students may be easily overwhelmed by the exhaustive material available in print and electronically What is useful and what can be ignored is a strategic question and few know where to begin This book provides a guide **Doing the Town** Catherine Cocks,2001-09-19 Tourists and travelers in the early nineteenth century saw American cities as ugly spaces lacking the art and history that attracted thousands to the great cities of Europe By the turn of the century however city touring became popular in the United States and the era saw the rise of elegant hotels packaged tours and train travel to cities for vacations that would entertain and edify This fascinating cultural history studded with vivid details bringing the experience of Victorian era travel alive explores the beginnings of urban tourism and sets the phenomenon within a larger cultural transformation that encompassed fundamental changes in urban life and national identity Focusing mainly on New York San Francisco Washington D C and Chicago Catherine Cocks describes what it was like to ride on Pullman cars stay in the grand hotels and take in the sights of the cities Her evocative narrative draws on innovative readings of sources such as guidebooks travel accounts tourist magazines and the journalism of the era Exploring the full cultural context in which city touring became popular Cocks ties together many themes in urban and cultural history for the first time such as the relationships among class gender leisure and the uses and perceptions of urban space Offering especially lively reading Doing the Town provides a memorable journey into the experience of the new urban tourist at the same time as it makes a sophisticated contribution to our understanding of the urban and cultural development of the United States **Handbook to Life in America** Rodney P. Carlisle,2009 Examines the history events and people of the early twentieth century in America **Conference Proceedings** ,1994 **Straphanging in the USA** Martin W. Sandler,2003-09-04 A riveting look at the evolution of transportation in American cities Straphanging in America

begins with an examination of the horsecar and omnibus then traces the extraordinary impact of the cable car elevated railway interurban and subway on city life and the nation Capturing people's imaginations with its magical use of electricity trolley cars made pollution free inexpensive mass urban transportation possible and created suburbs Interurbans connected cities spawned new towns and made overland travel a national pastime Subways solved the problem of street congestion Beyond the effects on landscape urban transport unified cities as people of all economic backgrounds rubbed elbows Vividly illustrating America's urban transformation Straphanging in America captures the excitement of a nation and its burgeoning technology

Watching the Traffic Go By Paul Mason Fotsch, 2009-06-03 2007 Jane Jacobs Urban Communication Publication Award Urban Communication Foundation As twentieth century city planners invested in new transportation systems to deal with urban growth they ensured that the automobile rather than mass transit would dominate transportation Combining an exploration of planning documents sociological studies and popular culture Paul Fotsch shows how our urban infrastructure developed and how it has shaped American culture ever since Watching the Traffic Go By emphasizes the narratives underlying our perceptions of innovations in transportation by looking at the stories we have built around these innovations Fotsch finds such stories in the General Motors Futurama exhibit at the 1939 World's Fair debates in Munsey's magazine films such as Double Indemnity and even in footage of the O J Simpson chase along Los Angeles freeways Juxtaposed with contemporaneous critiques by Lewis Mumford Theodor Adorno and Max Horkheimer Fotsch argues that these narratives celebrated new technologies that fostered stability for business and the white middle class At the same time transportation became another system of excluding women and the poor especially African Americans by isolating them in homes and urban ghettos A timely interdisciplinary analysis Watching the Traffic Go By exposes the ugly side of transportation politics through the seldom used lens of popular culture

Paying the Toll Louise Nelson Dyble, 2011-10-11 Since its opening in 1937 the Golden Gate Bridge has become an icon for the beauty and prosperity of the San Francisco Bay Area as well as a symbol of engineering achievement Constructing the bridge posed political and financial challenges that were at least as difficult as those faced by the project's builders To meet these challenges northern California boosters created a new kind of agency an autonomous self financing special district The Golden Gate Bridge and Highway District developed into a powerful organization that shaped the politics and government of the Bay Area as much as the bridge shaped its physical development From the moment of the bridge district's incorporation in 1928 its managers pursued their own agenda They used all the resources at their disposal to preserve their control over the bridge cultivating political allies influencing regional policy and developing an ambitious public relations program Undaunted by charges of mismanagement and persistent efforts to turn the bridge as well as its lucrative tolls over to the state the bridge district expanded into mass transportation taking on ferry and bus operations to ensure its survival to this day Drawing on previously unavailable archives Paying the Toll gives us an inside view of the world of high stakes development cronyism and bureaucratic power

politics that have surrounded the Golden Gate Bridge since its inception *The American Dream* Joseph L. Daleiden, Can each of us achieve our own American dream while recognizing needs of other individuals society and future generations Not if our present national policies continue warns long term planning expert Joseph L Daleiden He persuasively argues that if present socioeconomic trends remain our nation faces social disaster before the middle of the 21st century These trends can be reversed he insists but only if we are willing to 1 reject failed policies both liberal and conservative directed at population growth the environment the national debt trade poverty crime race relations education healthcare social security and tax reform 2 accept that all of these areas of concern are intertwined and 3 take responsibility for our decisions Avoiding ideology and platitudes Daleiden s pragmatic approach relies on actual evidence of how prospective policies will influence human behavior and whether their outcomes will increase or decrease human happiness in the long run Joseph L Daleiden Evanston IL is also the author of *The Final Superstition A Critical Evaluation of the Judeo Christian Legacy and The Science of Morality The Individual Community and Future Generations* **Environmental Sociology** Michael D. Mehta, Eric Ouellet, 1995 **Hella Town** Mitchell Schwarzer, 2022-08-16 Hella Town reveals the profound impact of transportation improvements systemic racism and regional competition on Oakland s built environment Often overshadowed by San Francisco its larger and more glamorous twin Oakland has a fascinating history of its own From serving as a major transportation hub to forging a dynamic manufacturing sector by the mid twentieth century Oakland had become the urban center of the East Bay Hella Town focuses on how political deals economic schemes and technological innovations fueled this emergence but also seeded the city s postwar struggles Toward the turn of the millennium as immigration from Latin America and East Asia increased Oakland became one of the most diverse cities in the country The city still grapples with the consequences of uneven class and race based development amid disruption How do past decisions about where to locate highways or public transit urban renewal districts or civic venues parks or shopping centers influence how Oaklanders live today A history of Oakland s buildings and landscapes its booms and its busts provides insight into its current conditions an influx of new residents and businesses skyrocketing housing costs and a lingering chasm between the haves and have nots

City Games Steven A. Riess, 1991 Comprehensive and thoughtful City Games looks at the complex interrelationship and interdependency between sport and the city Steven A Riess shows how demographic growth evolving special arrangements social reform the formulation of class and ethnic subcultures the expansion of urban government and the rise of political machines and crime syndicates all interacted to influence the development of sports in the United States **Capitalism, For and Against** Ann E. Cudd, Nancy Holmstrom, 2011-01-06 Political philosophy and feminist theory have rarely examined in detail how capitalism affects the lives of women Ann Cudd and Nancy Holmstrom take up opposing sides of the issue debating whether capitalism is valuable as an ideal and whether as an actually existing economic system it is good for women In a discussion covering a broad range of social and economic issues including unequal pay industrial reforms and

sweatshops they examine how these and other issues relate to women and how effectively to analyze what constitutes capitalism and women's interests Each author also responds to the opposing arguments providing a thorough debate of the topics covered The resulting volume will interest a wide range of readers in philosophy political theory women's studies and global affairs
