Mardis, 2021-07-19 This thorough treatment of collection development for school library educators students and practicing school librarians provides quick access to information This seventh edition of *The Collection Program in Schools* is updated in several key areas It provides an overview of key education trends affecting school library collections such as digital textbooks instructional improvement systems STEM priorities and open education resource OER use and reuse Topics of discussion include the new AASL standards as they relate to the collection the idea of crowd sourcing in collection development and current trends in the school library profession such as Future Ready Libraries and new standards from the National Board for Professional Teaching Standards Each chapter has been updated and revised with new material and particular emphasis is placed on disaster preparedness and response as they pertain to policies circulation preservation and moving or closing a collection This edition also includes updates to review of curation and community analysis principles as they affect the development of the library collection

Diversity Programming for Digital Youth Jamie Campbell Naidoo, 2014-06-24 Combining information about outreach to diverse populations selection of culturally diverse children s print and digital media and library programming this book is the tool librarians need to promote cultural understanding through engaging children s programs designed for today s culturally diverse youth Today s children live in a culturally diverse and constantly changing digital world New digital media is created every day but librarians and other educators need help in evaluating cultural content in digital apps determining whether they send appropriate social messages to children and learning how to use them in library programs that promote cultural competence *Diversity Programming for Digital Youth Promoting Cultural Competence in the Children s Library* provides just the help that is needed This resource is the only one to examine the role of culturally diverse digital media and how it can be used with children s books to promote cultural competence in the library It provides annotated lists of digital media paired with culturally diverse literature to offer librarians and educators a springboard for creating enriching engaging and culturally relevant programs for children from diverse backgrounds The sample digital storytime programs celebrating diverse cultures will benefit busy librarians looking for ways to engage reluctant readers in library storytimes

Multicultural Children's Literature Donna E. Norton, 2009 With the growing number of ethnic minority students in public schools it is very important for teachers librarians and all those who work with children to have an understanding of appropriate multicultural literature

This book and the literature selections are designed to develop heightened sensitivity and understanding of people from various cultures and traditions through the selection of carefully chosen literature. It includes a balance of research about the culture and the literature, a discussion of authentic literature for students from early childhood through young adults, and teaching activities designed to develop higher cognitive abilities. The book uses a unique five phase approach for the study of multicultural literature that has been field tested. **Read, Discuss, and Learn** Lisa A. Fisher, 2010-08-16 Literacy groups promote discussion and learning through the exploration of text but many educators are hesitant to adopt them. For current and future secondary teachers, administrators, and curriculum directors, **Read, Discuss, and Learn** provides support and guidance so educators can confidently involve students within the learning process at a deep level. This is a practical resource guide that walks teachers through the use of literacy groups within their classrooms over a typical 365 day journey of secondary students. The author provides educators with the tools to think about literacy groups to create literacy groups and to design the best assessment to adequately evaluate students' comprehension and mastery of new content. **Through the Eyes of a Child** Donna E. Norton, Sandra E. Norton, Amy A. McClure, 2003 In its seventh edition, **Through the Eyes of a Child: An Introduction to Children's Literature** continues to be a visually stunning, theoretically sound, comprehensive overview of children's literature. It focuses squarely on selecting and evaluating quality literature to share with children and guiding them to appreciate and respond to that literature. This edition features multicultural literature and young adult literature in every chapter, expanded coverage of biographies and informational books, and over 100 new children's titles referenced throughout. A children's literature CD-ROM accompanies the book and contains bibliographic information for thousands of titles, making it even easier to share quality literature with children and adolescents. **More Mirrors in the Classroom** Jane Fleming, Susan Catapano, Candace M. Thompson, Sandy Ruvalcaba Carrillo, 2016-06-08 Nearly 30% of all public school children attend school in large or mid-size cities totaling more than 16 million students in 22,000 schools. For schools serving culturally and linguistically diverse populations and large numbers of children living in poverty, a significant achievement gap persists. Proponents of multicultural education often advocate for instruction with culturally relevant texts to promote inclusion, compassion, and understanding of our increasingly diverse society. Less discussion has focused on the significant body of research that suggests that culturally relevant texts have important effects on language and literacy development. By connecting the dots of existing research, **More Mirrors in the Classroom** raises awareness about the critical role that urban children's literature can play in helping children learn to read and write. In addition, it provides practical, step-by-step advice for increasing the cultural relevance of school curricula in order to accelerate literacy learning. ***Fundamentals of Collection Development and Management*** Peggy Johnson, 2014-03-21 In this sweeping revision of a text that has become an authoritative standard, expert instructor and librarian Peggy Johnson addresses the art of controlling and updating library collections, whether located locally or accessed remotely. **Mistakes We Have Made** Bre Evans-Santiago, 2020-02-24 2021
