The Economics of the Multilingual Workplace François Grin, Claudio Sfreddo, François Vaillancourt, 2011-01-25 This book proposes a path breaking study of the economics of multilingualism at work proposing a systematic approach to the identification and measurement of the ways in which language skills and economic performance are related Using the instruments of economic investigation but also explicitly relating the analysis to the approaches to multilingualism at work developed in the language sciences this interdisciplinary book proposes a systematic step by step exploration of the issue Starting from a general identification of the linkages between multilingualism and processes of value creation it reviews the contributions of linguistics and economics before developing a new economic model of production in which language is taken into account Testing of the model using data from two countries provides quantitative estimations of the influence of multilingualism on economic processes showing

that foreign language skills can make a considerable contribution to a country's GDP. These findings have significant implications for language policy and suggest strategies helping language planners to harness market forces for increased effectiveness. A technical appendix shows how the novel technical and statistical procedures developed in this study can be generalized and applied wherever researchers or decision makers need to identify and measure the value of multilingualism.

Linguistic Awareness in Multilinguals Ulrike Jessner, 2006-03-15 This book discusses cognitive and psycholinguistic aspects of third language acquisition and trilingualism and explores the key role of linguistic awareness in multilingual proficiency and language learning. In view of the widespread acquisition of English by those who are already bilingual or are also acquiring a regional lingua franca, this study will contribute to the current discussion of multilingualism with English in Europe and beyond as well as the understanding of multilingual speech processing. The author supports a dynamic view of multilingualism by stressing the cognitive advantages that the contact with more languages can offer and uses this approach as the basis for future language teaching and learning. Chapters cover topics such as performing in a third language, metalinguistic awareness in multilinguals and in multilingual education and English as a third language in Europe.
