Narrative Mourning Kathleen M. Oliver, 2020-07-17 Narrative Mourning argues that the cultural disappearance of the dead dying body in eighteenth century Britain found expression in fictional representations of the relic object or relict person within certain British novels These relics relicts exist as material signs of loss and as compensation for loss they exist as surrogates for the absent living dead or dying and as reliquaries for their psychic essences **Death and the Body in the Eighteenth-Century Novel** Jolene Zigarovich, 2023-01-10 Death and the Body in the Eighteenth Century Novel demonstrates that archives continually speak to the period's rising funeral and mourning culture as well as the increasing commodification of death and mourning typically associated with nineteenth century practices Drawing on a variety of historical discourses such as wills undertaking histories medical treatises and textbooks anatomical studies philosophical treatises and religious tracts and sermons the book contributes to a fuller understanding of the history of death in the Enlightenment and its narrative transformation Death and the Body in the Eighteenth Century Novel not only offers new insights about the effect of a growing secularization and commodification of death on the culture and its productions but also fills critical gaps in the history of death using narrative as a distinct literary marker As anatomists dissected undertakers preserved jewelers encased and artists figured the corpse so too the novelist portrayed bodily artifacts Why are these morbid forms of materiality entombed in the novel Jolene Zigarovich addresses this complex question by claiming that the body itself its parts or its preserved representation functioned as secular memento suggesting that preserved remains became symbols of individuality and subjectivity To support the conception that in this period notions of self and knowing center upon theories of the tactile and material the chapters are organized around sensory conceptions and bodily materials such as touch preserved flesh bowel heart wax hair and bone Including numerous visual examples the book also argues that the relic represents the slippage between corpse and treasure sentimentality and materialism and corporeal fetish and aesthetic

accessory Zigarovich's analysis compels us to reassess the eighteenth century response to and representation of the dead and dead like body and its material purpose and use in fiction In a broader framework *Death and the Body in the Eighteenth Century Novel* also narrates a history of the novel that speaks to the cultural formation of modern individualism *The Source* Loretto Dennis Szucs, Sandra Hargreaves Luebking, 2006 Genealogists and other historical researchers have valued the first two editions of this work often referred to as the genealogist's bible The new edition continues that tradition Intended as a handbook and a guide to selecting locating and using appropriate primary and secondary resources *The Source* also functions as an instructional tool for novice genealogists and a refresher course for experienced researchers More than 30 experts in this field genealogists historians librarians and archivists prepared the 20 signed chapters which are well written easy to read and include many helpful hints for getting the most out of whatever information is acquired Each chapter ends with an extensive bibliography and is further enriched by tables black and white illustrations and examples of documents Eight appendixes include the expected contact information for groups and institutions that persons studying genealogy and history need to find

Kimball,2004 Trench art is a highly evocative term conjuring up the image of a mud spattered soldier in a soggy trench hammering out a souvenir for a

loved one at home while dodging bullets and artillery shells This is an appealing but very false conception of the reality of this art form A few types of trench art could be made easily in a trench during lulls in the fighting but the hammering involved in making many trench art pieces would have been greeted with unwelcome hostile fire from the enemy Trench art items made during wars were in fact created at a distance from the front line trenches either by soldiers at rest behind the front lines by skilled artisans among the civilian population by prisoners of war or by soldiers *Forthcoming Books* Rose Army,2003-12 Americana & Collectibles Harry L.
