the personal obstacles to achieving exactly what we want out of life My book *Moving the Stars With Your Words* shows the reader the steps to achieving the latter Today we measure our prowess as a species strictly in physical and technological terms Modern medicine is proficient at diagnosing the physical causes of our illnesses while technology keeps pushing back the realm of the physical unknown And yet we are a society still awash with mental and physical illnesses which neither medicine nor technology can eliminate The great illusion of our times is that only others better qualified than we particularly those versed in the technical sciences hold the key to our welfare My approach and philosophy of life has allowed hundreds of people to choose the experiences they wish to have and from there literally to speak those experiences into existence in other words to become the Creative Factor in their life However individual effort does not preclude conviction and faith in a higher power that can help realize a new life No religious doctrine or formula of salvation here Whatever the reader's spiritual inclinations this co-creation as I call it can create a life of magic The only requisite is that we get on the side of the universe and speak our life into existence *Spiritual Warfare* David Barksdale, 2017-12-18 This is my personal testimony as to God's faithfulness to a convert soul and how he is always there Congressional Record United States. New Religious Movements in Modern Asian History David W. Kim, 2020-09-30 This book provides evidence that the emergence of Asian new religious movements NRMs was predominantly the result of anti colonial ideology from local religious groups or individuals The contributors argue that when traditional religions were powerless to maintain their cultural heritage the leadership of NRMs adduced alternative principles and the new teachings of each NRM attracted the local people enough for them to change their beliefs The contributors argue that as a whole the Asian new religious movements overall were very ardent and progressive in transmitting their new ideologies The varied viewpoints in this volume attest to the consistent development of Asian NRMs from domestic and international dimensions by replacing old traditional religions
