Moyen Age Venise Miracle Pierres:

Byzantium, Venice and the Medieval Adriatic Magdalena Skoblar, 2021-04-15 The Adriatic has long occupied a liminal position between different cultures languages and faiths This book offers the first synthesis of its history between the seventh and the mid fifteenth century a period coinciding with the existence of the Byzantine Empire which as heir to the Roman Empire lay claim to the region The period also saw the rise of Venice and it is important to understand the conditions which would lead to her dominance in the late Middle Ages An international team of historians and archaeologists examines trade administration and cultural exchange between the Adriatic and Byzantium but also within the region itself and makes more widely known much previously scattered and localised research and the results of archaeological excavations in both Italy and Croatia Their bold interpretations offer many stimulating ideas for rethinking the entire history of the Mediterranean during the period

History of the Adriatic Egidio Ivetic, 2022-05-27 The Adriatic is the small Mediterranean a sea within a sea part of the Mediterranean and at the same time detached from it a largely enclosed sea with stunning coastlines and a long history of commercial political and cultural exchange Silent witness to the flow of civilizations the Adriatic is the meeting point of East and West where many empires had their frontiers and some overlapped With Italy on one side and the Balkans on the other the Adriatic is the area where the Latin West became intertwined with the Greek and Ottoman East This book tells the history of the Adriatic from the first cultures of the Neolithic Age through to the present day All of the great civilizations and cultures that bordered and crossed the Adriatic are discussed Ancient Greece and Rome Byzantium and the Holy Roman Empire Venice and the Ottomans Catholicism Orthodox Christianity and Islam Byzantium was replaced by Venice queen of the Adriatic which reached its zenith at the beginning of the sixteenth century and maintained commercial and military hegemony in its Gulf sharing the sea with the Turks the Habsburgs the Pope and the Spanish vice kingdom of Naples It was Napoleon who ended Venice s reign in 1797 In the nineteenth century the Austrian Empire prevailed and Central Europe reached the Mediterranean through the Adriatic United Italy placed its most symbolic frontier in the eastern Adriatic clashing with Austria Hungary in the First World War The twentieth century was marked by the prolonged conflicts and eventually peace between Yugoslavia Albania

and Italy Today the Adriatic is a region increasingly integrated into the European Union experiencing a new era of cooperation following the dramatic collapse of Yugoslavia Across centuries this book illustrates the rich cultural and artistic heritage of diverse civilizations as they left their mark on the cities shores and states of the Adriatic

Patterns in the History of Polycentric Governance in European Cities Cédric Brélaz, Thomas Lau, Hans-Joachim Schmidt, Siegfried Weichlein, 2024-03-18 The autonomy granted to local communities such as towns municipalities and city states by larger central powers such as empires kings lords and central states is a recurrent feature of European history over time from Antiquity to the contemporary period This volume explores the political social and cultural aspects of this feature in a diachronic and comparative perspective from the Roman Empire to today s city partnerships To this end it uses the concept of polycentric governance Originally developed by political economist Vincent Ostrom in the 1960s and then expanded by the 2009 winner of the Nobel Prize in Economics political scientist Elinor Ostrom this concept characterises the interdependent system of relations between different actors involved in a process and for that reason it is frequently used in policy studies This volume applies the concept of polycentric governance to historical studies as a heuristic device to analyse the multilayer systems into which cities were integrated at various points in European history as well as the implications of the coexistence of different political structures Fourteen chapters examine the structures the dynamics and the discourse of polycentric governance through various case studies from the Roman Empire from medieval towns from early modern Europe and from contemporary cities The volume suggests that for extended periods of time throughout European history polycentric governance has played a pivotal role in the organisation and distribution of political power

Karen E. McCluskey, 2019-10-08 This book focuses on the comparatively unknown cults of new saints in late mediaeval Venice. These new saints were near contemporary citizens who were venerated by their compatriots without official sanction from the papacy. In doing so, the book uncovers a sub culture of religious expression that has been overlooked in previous scholarship. The study highlights a myriad of hagiographical materials both visual and textual created to honour these new saints by members of four different Venetian communities: the Republican government, the monastic orders (mostly Benedictine, the mendicant orders and local parishes). By scrutinising the hagiographic portraits described in painted vita panels, written vitae, passiones, votive images, sermons and sepulchre monuments, as well as archival and historical resources, the book identifies a specifically Venetian typology of sanctity tied to the idiosyncrasies of the city's site and history. By focusing explicitly on local typological traits, the book produces an intimate and complex portrait of Venetian society and offers a framework for exploring the lived religious experience of late mediaeval societies beyond the lagoon. As a result, it will be of keen interest to scholars of Venice, lived religion, hagiography, mediaeval history and visual culture. Une autre histoire de la Renaissance Élisabeth Crouzet-Pavan, 2024-10-02 Nous sommes dans l'Italie du xve siècle. Au rebord d'une fenêtre, un pot de majolique d'or de feuilles et au beau reflet matillique. Venu de la région de Valence, il abrite une plante ornementale. Sur un bureau, c'est de ciseaux, de lunettes, de plumes, un deux-trois encrriers sont disposés. L'un importé depuis la Syrie, mamelouke. Venise est de bronze damasquiné, l'autre de verre plus ou moins précieux, alors que le dernier en faïence a été fabriqué en Italie. Faenza. Sur un lit, des courtèpointes, des couvre-lits, des oreillers empilés autour des courtines, une drabauche de velours, de taffetas et puis des cordons d'or, des franges et des motifs brodés du vert, du cramoisi, du pourpre. Accroché proximit pour veiller sur les dormeurs, un tableau montrant une Vierge, l'Enfant plus loin sur le mur, un miroir. Dans la chambre, encore des coffres dont les panneaux peints narrent des histoires et des tapis d'Anatolie ou du Caire. Dans la grande salle, sur la table installée pour un repas d'apparat et sur le dressoir, une profusion indite de verrerie et de vaisselle. Ces objets sont au cœur de notre enquête qui veut leur rendre une vie oubliée en s'interrogeant sur les pratiques qu'ils autorisent, sur les liens qu'ils entretiennent avec ceux qui les fabriquent, les achètent, les utilisent, les font circuler. Meubles, tissus, vases et fourchettes racontent une histoire anthropologique de la Renaissance, celle aussi importante que les triomphes des arts et de l'humanisme, des transformations de la culture matérielle, celle d'une Italie ouverte vers les ailleurs. Élisabeth Crouzet-Pavan est professeure maître d'histoire Sorbonne Université. Elle est spécialiste de l'Italie de la fin du Moyen Âge et de la Renaissance.
