Analyzes the themes and progression of Mozart's most famous works comparing and contrasting them to each other and other composers great works Includes pictures of important people and places in Mozart's life Includes a bibliography for further reading Includes a list of Mozart's works It is a mistake to think that the practice of my art has become easy to me I assure you dear friend no one has given so much care to the study of composition as I There is scarcely a famous master in music whose works I have not frequently and diligently studied Mozart Wolfgang Amadeus Mozart 1756-1791 baptized Johannes Chrysostom Wolfgangus Theophilus Mozart is widely considered to be the culminating figure of the Classical Period in music which spanned much of the 18th to early 19th centuries As such he is remembered as one of Western Civilization's most prodigious and spontaneous natural talents on par with Leonardo da Vinci and Johann Sebastian Bach Mozart once called music my life and indeed few were as naturally gifted at it Mozart's memory and genius for music allowed him to compose lengthy works even full length operas without transferring them to paper until he had fully visualized and retained them He regarded copying as a tedious task and this caused no small amount of consternation among performers in particular the orchestra some of whom received their parts minutes before curtain This was said to be the case for the premiere of Don Giovanni where Mozart was furiously scrawling and handing out parts to the overture with the audience in attendance Surprisingly these entire works sometimes hundreds of pages not penned until they were complete in his mind usually arrived to the manuscript without a single blemish or change of heart Mozart's eccentricities are remembered centuries after his death to the point that much of his life illnesses and death have been mythologized and today a lot of his legacy has been shaped by the manner in which his personality has been depicted in biographical works like Amadeus In addition to a large and consistently high level body of work Mozart represents for some the real beginning of the German lineage to the 20th century although Ludwig Beethoven greatly under Mozart's influence created much of that transition's reality Three of Mozart's operas are continually in the top 10 works performed around the world his piano concerti and symphonies are all in the standard repertoire save for some of the earliest and his choral works are treasures of the West The bulk of his reputation was not garnered by breaking with tradition and destroying it but rather by fulfilling it with a greater

beauty and naturalness than was possible for any other artist of the time Mozart was perhaps the world's greatest master of the modern melody coming onto the scene after centuries of rule-laden pedantic and convoluted procedures dominated by the Catholic Church and he certainly possessed one of the most astonishing levels of intelligence in European history

**Mozart: The Man and the Artist** Friedrich Kerst, 2019-04-20 The German composer Wolfgang Amadeus Mozart 1756-1791 was not only a musical genius but was also one of the pre-eminent geniuses of the Western world He defined in his music a system of musical thought and an entire state of mind that were unlike any previously experienced A true child prodigy he began composing at age 5 and rapidly developed his unmistakable style by 18 he was composing works capable of altering the mind states of entire civilizations Indeed he and his predecessor Bach accomplished the Olympian feat of adding to the human concepts of civility and civilization So these two were not just musical geniuses but geniuses of the humanities Mozart's music IS civilization It encompasses all that is humane about an idealized civilization And it probably was Mozart's main purpose to create and propagate a concept of a great civilization through his music He wanted to show his fellow Europeans with their garbage polluted city streets their violent mono-maniacal leaders and their stifling non-humane bureaucracies new ideas on how to run their civilizations properly He wanted them to hear and feel a sense of civilized movement of the musical expressions of man moving as he would if upholding the highest values of idealized societies One need only listen to the revolutionary opening bars of his famous *Eine Kleine Nachtmusik* to see this
