Mozart And The Enlightenment Truth Virtue And Beauty In Mozarts Operas:

Mozart and the Enlightenment Nicholas Till, 1995 In this illuminating new study of Mozart's operas Nicholas Till shows that the composer was not a divine idiot but an artist whose work was informed by the ideas and discoveries of his time Examining the dramatic emergence of a modern society in eighteenth century Austria Till reappraises the history and meaning of the Enlightenment and Mozart's role within it Book jacket *Mozart and the Enlightenment* Nicholas Till, 1993 Describes the historical and cultural background of the eighteenth century discusses Mozart's education and looks at each of his operas and their themes *Mozart and the Enlightenment* Nicholas Till, 1993 **Opera Buffa in Mozart's Vienna** Mary Kathleen Hunter, James Webster, 1997-11-27 This collection of essays presented by an internationally known team of scholars explores the world of Vienna and the development of opera buffa in the second half of the eighteenth century Although today Mozart remains one of the most well known figures of the period the era was filled with composers librettists writers and performers who created and developed opera buffa Among the topics examined are the relationship of Viennese opera buffa to French theatre Mozart and eighteenth century comedy gender nature and bourgeois society on Mozart's buffa stage as well as close analyses of key works such as *Don Giovanni* and *Le nozze di Figaro* **Art and Ideology in European Opera** Rachel Cowgill, David Cooper, Clive Brown, 2010 Opera that most extravagant of the performing arts is infused with the contexts of power brokering and cultural display in which it was conceived and experienced For individual operas such contexts have shifted over time and new meanings emerged often quite remote from those intended by the original collaborators but tracing this ideological dimension in a work's creation and reception enables us to understand its cultural and political role more clearly sometimes conflicting with its status as art and sometimes enhancing it This collection is a Festschrift in honour of Julian Rushton one of the most distinguished opera scholars of his generation and highly regarded for his innovative studies of Gluck Mozart and Berlioz among many others Colleagues associates and former students pay tribute to his work with essays highlighting the interplay between opera art and ideology across three centuries Three broad themes are opened up from a variety of approaches nationalism cosmopolitanism and national opera opera class and the politics of enlightenment and opera and otherness British opera is represented by studies of Grubbe Purcell Dibdin Holst Stanford and Britten but the collection sustains a truly European perspective rounded out with essays on French opera funding Bizet Mozart Mendelssohn Verdi Puccini Janacek Nielsen Rimsky Korsakov and Schreker Several works receive some of their first extended discussion in English **Understanding the Women of Mozart's Operas** Kristi Brown-Montesano, 2021-11-09 Is *The Marriage of Figaro* just about Figaro Is *Don Giovanni*'s story the only one or even the most interesting one in the opera that bears his name For generations of critics historians and directors it's Mozart's men who have mattered most Too often the female characters have been understood from the male protagonist's point of view or simply reduced on stage and in print to paper cutouts from the age of the powdered wig and the tightly cinched corset It's

time to give Mozart's women and Mozart's multi-dimensional portrayals of feminine character their due. In this lively book Kristi Brown Montesano offers a detailed exploration of the female roles in Mozart's four most frequently performed operas: *Le nozze di Figaro*, *Don Giovanni*, *Cos fan tutte*, and *Die Zauberflöte*. Each chapter takes a close look at the music, libretto, text, literary sources, and historical factors that give shape to a character, re-evaluating common assumptions and proposing fresh interpretations. Brown Montesano views each character as the subject of a story, not merely the object of a hero's narrative or the stock figure of convention. From amiable Zerlina to the awesome Queen of the Night to calculating Despina, all of Mozart's women have something unique to say. These readings also tackle provocative social, political, and cultural issues which are used in the operas to define positive and negative images of femininity: revenge, power, seduction, resistance, autonomy, sacrifice, faithfulness, class, maternity, and sisterhood. Keenly aware of the historical gap between the origins of these works and contemporary culture, Brown Montesano discusses how attitudes about such concepts past and present influence our appreciation of these fascinating representations of women.

Mozart's Operas and National Politics Martin Nedbal, 2023-08-10. As both an in-depth study of Mozart criticism and performance practice in Prague and a history of how eighteenth-century opera was appropriated by later political movements and social groups, this book explores the reception of Mozart's operas in Prague between 1791 and the present and reveals the profound influence of politics on the construction of the Western musical canon. Tracing the links between performances of Mozart's operas and strategies that Bohemian musicians, critics, directors, musicologists, and politicians used to construct modern Czech and German identities, Nedbal explores the history of the canonization process from the perspective of a city that has often been regarded as peripheral to mainstream Western music history. Individual chapters focus on Czech and German adaptations of Mozart's operas for Prague's theaters, operatic criticism published in Prague's Czech and German journals, the work of Bohemian historians interpreting Mozart, and endeavours of cultural activists to construct monuments in recognition of the composer.

Feasting & Fasting in Opera Pierpaolo Polzonetti, 2021-11-11. Feasting and Fasting in Opera shows that the consumption of food and drink is an essential component of opera, both on and off stage. In this book, opera scholar Pierpaolo Polzonetti explores how convivial culture shaped the birth of opera and opera-going rituals until the mid-nineteenth century, when eating and drinking at the opera house were still common. Through analyses of convivial scenes in operas, the book also shows how the consumption of food and drink, and sharing or the refusal to do so, define characters' identity and relationships. Feasting and Fasting in Opera moves chronologically from around 1480 to the middle of the nineteenth century, when Wagner's operatic reforms banished refreshments during the performance and mandated a darkened auditorium and absorbed listening. The book focuses on questions of comedy, pleasure, embodiment, and indulgence, looking at fasting, poisoning, food disorders, body types, diet, and social, ethnic, and gender identities in both tragic and comic operas, from Monteverdi to Puccini. Polzonetti also sheds new light on the diet Maria Callas underwent in preparation for her famous

performance as Violetta the consumptive heroine of Verdi's *La traviata*. Neither food lovers nor opera scholars will want to miss Polzonetti's page turning and imaginative book.

The Tooth That Nibbles at the Soul Marshall Brown, 2014-07-01 The Tooth that Nibbles at the Soul brings together Marshall Brown's new and previously published writings on literature and music These essays engage questions that are central to the development of literature music and the arts in the period from Romanticism at the end of the eighteenth century to the avant garde movements of the early twentieth a period in which the modern evolution of the arts is coupled with a rise in the significance of music as artistic form With a special focus on lyric poetry and canonical composers including Mozart Bach Beethoven Brahms and Schubert Brown ties the growing prominence of music in this period to the modernist principle of abstraction Music as Brown provocatively notes conveys meaning without explicitly saying anything This principle of abstraction could be taken as the overriding formula for modernist art in general and it explains why in this period music becomes the model to which all the other arts in particular painting and literature aspire Brown's title taken from a poem by Emily Dickinson reminds us that abstraction musical and artistic is anything but toothless

indeed it nibbles at the soul in subtle and enduring ways Throughout his wide ranging and erudite analysis Brown s goal is to pinpoint the nature of music s bite and to illuminate the shared elements of literature and music While there are many previous comparisons of music and poetry few are systematic or based on a solid knowledge of both literary criticism and musicology Brown s essays can be enjoyed by a general well read public not trained in either music or eighteenth century literature as well as by an audience steeped in sophisticated if not technical musical analysis Three Modes of Perception in Mozart Edmund J. Goehring,2004-11-11 This 2004 book is a full length scholarly study of what is widely regarded as Mozart s most enigmatic opera and Lorenzo Da Ponte s most erudite text Against the long standing judgement that the opera uses a misguided confidence in reason to traduce feeling Goehring s study shows how *Così* affirms comedy s regenerative powers and its capacity to grant access to modes of sympathy and understanding that are otherwise inaccessible In making this argument the book surveys a rich literary operatic and intellectual territory It offers fresh perspective on the relationships between text and tone in the opera on the tension between comedy and philosophy and its representation in stage works and on the pastoral mode which the opera uses in subtle ways Throughout Goehring s argument is sustained by close readings of primary sources many of them little known and is richly illustrated with musical examples **German**

Literature on the Middle East Nina Berman,2011 An investigation of Germany and the Middle East through literary sources in the context of social economic and political practices Recognition in Mozart's Operas Jessica Waldoff,2006-04-13 Since its beginnings opera has depended on recognition as a central aspect of both plot and theme Though a standard feature of opera recognition a moment of new awareness that brings about a crucial reversal in the action has been largely neglected in opera studies In *Recognition in Mozart's Operas* musicologist Jessica Waldoff draws on a broad base of critical thought on recognition from Aristotle to Terence Cave to explore the essential role it plays in Mozart s operas The result is a fresh approach to the familiar question of opera as drama and a persuasive new reading of Mozart s operas

The Habsburg Legacy Ritchie Robertson,Edward Timms,1994 With the collapse of Communism in Eastern Europe and the break up of the Soviet Union nationalism and its effects are once more at the forefront of attention However to understand more fully what is happening now it is valuable to look back into the past and examine the construction and collapse of the multi national Habsburg Empire After examining how the Holy Roman Empire became the Austrian Empire at the beginning of the nineteenth century this collection of essays charts the subsequent growth of distinctive regional identities in Hungary Galicia Trieste and Croatia before looking at the official attempts to define ethnic identity and what harm resulted from their good intentions Differing constructions of Austrian identity among Jewish novelists women writers and art historians besides the literary works of Hofmannsthal and Musil are then analysed as are the attempts to devise a new Austrian identity under the semi fascist rule of the 1930s and the early years of the post war Second Republic Concluding with a general analysis contrasting the gradual integration of nations in present day western Europe with the

dissolution of multi national states in the east Austrian Studies 5 is both a challenging reappraisal of a fallen Empire and a timely reflection of an on going question Book Jacket *Representations of the Orient in Western Music* Nasser Al-Tae, 2017-07-05 This book focuses on the cultural political and religious representations of the Orient in Western music Dr Nasser Al Tae traces several threads in a vast repertoire of musical representations concentrating primarily on the images of violence and sensuality Al Tae argues that these prevailing traits are not only the residual manifestation of the Ottoman threat to Western Europe but also the continuation of a long and complex history of fear and fascination towards the Orient and its Islamic religion In addition to analyses of musical works Al Tae draws on travel accounts paintings biographies and political events to engage with important issues such as gender race and religious differences that may have contributed to the variously complex images of the Orient in Western music The study extends the range of Orientalism to cover eighteenth century Austria nineteenth century Russia and twentieth century America The book challenges those scholars who do not see Orientalism as problematic and tend to ignore the role of musical representations in shaping the image of the Other within a wider interdisciplinary study of knowledge and power Essays on Literature and Music (1967-2004) by Steven Paul Scher , 2004-01-01 The present volume meets a frequently expressed demand as it is the first collection of all the relevant essays and articles which Steven Paul Scher has written on Literature and Music over a period of almost forty years in the field of Word and Music Studies Scher The Daniel Webster Professor of German and Comparative Literature at Dartmouth College Hanover NH USA is one of the founding fathers of Word and Music Studies and a leading authority in what is in the meantime a well established intermedial field He has published very widely in a variety of journals and collections of essays which until now have not always been easy to lay one s hands on His work covers a wide range of subjects and comprises theoretical methodological and historical studies which include discussions of Ferruccio Busoni Thomas Mann Bertolt Brecht Judith Weir the Talking Heads and many others and which pay special attention to E T A Hoffmann and German Romanticism The range and depth of these studies have made him the mastermind of Word and Music Studies who has defined the basic aims and objectives of the discipline This volume is of interest to literary scholars and musicologists as well as comparatists and all those concerned about the rapidly expanding field of Intermedia Studies

Ludwig van Beethoven , *Out of Time* Julian Johnson, 2015-02-27 Out of Time explores a bold idea that western art music of the last four hundred years is better understood through the idea of musical modernity than by the usual periodizations of music history Reading against the grain of linear history it reconsiders the common concerns of music in terms of time and history space and technology language and sound The result is a rehearing of modernity and a rethinking of modern music
