Life in Civil War America Michael J. Varhola, 2011-01-31 The Civil War is a fascinating time period in American history. *Life in Civil War America*, 2nd Edition, provides readers with fast facts and statistics about the 1860s, from military life to civilian life in both the North and South. Topics covered include social and economic realities of daily life, common slang and idioms, diets of the era, including recipes, food preparation, and the impact of shortages and inflation on rations, civilian dress, military dress, and technology of the time. The book focuses on the era, not just the events of the war. Period illustrations and photos further illuminate the era.

The Antietam Campaign Gary W. Gallagher, 2012-01-01 The Maryland campaign of September 1862 ranks among the most important military operations of the American Civil War. Crucial political, diplomatic, and military issues were at stake as Robert E. Lee and George B. McClellan maneuvered and fought in the western part of the state. The climactic clash came on September 17 at the battle of Antietam, where more than 23,000 men fell in the single bloodiest day of the war. Approaching topics related to Lee's and McClellan's operations from a variety of perspectives, contributors to this volume explore questions regarding military leadership, strategy, and tactics; the impact of the fighting on officers and soldiers in both armies; and the ways in which participants and people behind the lines interpreted and remembered the campaign. They also discuss the performance of untried military units and offer a look at how the United States Army used the Antietam battlefield as an outdoor classroom for its officers in the early twentieth century. The contributors are William A. Blair, Keith S. Bohannon, Peter S. Carmichael, Gary W. Gallagher, Lesley J. Gordon, D. Scott Hartwig, Robert E. L. Krick, Robert K. Krick, Carol Reardon, and Brooks D. Simpson.

Mr. Lincoln's Brown Water Navy Gary D. Joiner, 2007-07-26 The Union inland navy that became the Mississippi Squadron is one of the greatest yet least studied aspects of the Civil War. Without it, however, the war in the West may not have been won, and the war in the East might have lasted much longer and perhaps ended differently. The men who formed and commanded this large fighting force, with few exceptions, not been as thoroughly studied as their army counterparts. The vessels they created were highly specialized craft which operated in the narrow confines of the Western rivers in places that could not otherwise receive fire support. Ironclads and gunboats protected army forces and convoyed much needed supplies to far-flung Federal forces. They patrolled thousands of miles of rivers and fought battles that were every bit as harrowing as land engagements, yet inside iron monsters that created stifling heat with little ventilation. This book is about the intrepid men who fought under these conditions and the highly improvised boats in which they fought. The tactics their commanders developed were the basis for many later naval operations. Of equal importance were lessons learned about what not to do. The flag officers and

admirals of the Mississippi Squadron wrote the rules for modern riverine warfare The Earl J. Hess Fortifications Trilogy, Omnibus E-book Earl J. For Cause and Comrades James M. McPherson, 1997-04-03 Why did the soldiers of the Civil War Confederate and Union risk their lives through countless bloody battles and four long awful years It is to this question why did they fight that James McPherson America's preeminent Civil War historian turns his attention Drawing on more than 25

000 uncensored letters and nearly 250 private diaries from men on both sides McPherson shows that contrary to what many scholars believe the soldiers of the Civil War remained powerfully convinced of the ideals for which they fought throughout the conflict For Cause and Comrades lets these soldiers tell their own stories in their own words in a deeply moving exploration of why they fought this war
