Mugabe And The White African:

Mugabe and the White African Ben Freeth, 2011-10-05 Since President Mugabe began his violent land seizure programme in 2000 thousands of white farmers and their families have been forced to abandon all they own and flee Zimbabwe But Ben Freeth and his father in law farmer Mike Campbell who had owned and worked the land of their home for over 30 years were determined to take a stand They fought a desperate battle against Mugabe through the international courts it was a fight that almost cost them everything *Mugabe and the White African* is a first hand account of the madness that engulfed Zimbabwe where Mugabe's men destroyed farmland stole equipment slaughtered animals burnt down houses intimidated the workers and beat or murdered the farmers It is a heartbreaking story of trauma and tragedy and a tale of courage as one family driven by a deep sense of justice and strong Christian principles risked everything to fight for their home and their country

The White Africans Gerald L'Ange, 2012-04-17 The negotiated transfer of power in apartheid South Africa was the last act in the dismantling of white supremacy on the African continent While opening a new era for the whites in Africa it closed an earlier one that contains some of the most colourful episodes in world history In *The White Africans* South African journalist and writer Gerald L'Ange gives awarts and all account of the European experience in Africa from the explorations of the 15th century Portuguese mariners to the presidential inauguration of Nelson Mandela in 1994 The story is traced through the Europeans exploration and settlement through their slavery and economic exploitation their conquest and colonisation through decolonisation and the liberation struggles in Kenya Algeria the Portuguese territories Rhodesia and Namibia to the negotiation of democracy in South Africa Avoiding both past falsities and recent distortions the book seeks the truth of the European experience examines the present situation of the white Africans and looks at what might lie ahead for them

What Postcolonial Theory Doesn't Say Anna Bernard, Ziad Elmarsafy, Stuart Murray, 2015-08-11 This book reclaims postcolonial theory addressing persistent limitations in the geographical disciplinary and methodological assumptions of its dominant formations It emerges however from an investment in the future of postcolonial studies and a commitment to its basic premise namely that literature and culture are fundamental to the response to structures of colonial and imperial domination To a certain extent postcolonial theory is a victim of its own success not least because of the institutionalization of the insights that it has enabled Now that these insights no longer seem new it is hard to know what the field should address beyond its general commitments Yet the renewal of popular anti imperial energies across the globe provides an important opportunity to reassert the political and theoretical value of the postcolonial as a comparative interdisciplinary and oppositional paradigm This collection makes a claim for what postcolonial theory can say through the work of scholars articulating what it still cannot or will not say It explores ideas that a more aesthetically sophisticated postcolonial theory might be able to address focusing on questions of visibility performance and literariness Contributors highlight some of the shortcomings of current postcolonial theory in relation to contemporary

political developments such as Zimbabwean land reform postcommunism and the economic rise of Asia Finally they address the disciplinary geographical and methodological exclusions from postcolonial studies through a detailed focus on new disciplinary directions management studies international relations disaster studies overlooked locations and perspectives Palestine Weimar Germany the commons and the necessity of materialist analysis for understanding both the contemporary world and world literary systems

Life-Writing from the Margins in Zimbabwe Oliver Nyambi,2019-05-20 This book explores the unique contributions of various forms of post 2000 life writings such as the autobiography epistles and biographies to discourses about the nature and socio politics of what has become known as the Zimbabwean crisis c 2000 2009 Much of what has been written about the Zimbabwean crisis a decade long period of unprecedented economic collapse and political upheavals in the southern African country is strictly discipline specific and therefore limited to unidimensional modes of theorising the crisis s many and complex dimensions and dynamics In this context this book charts a paradigm shift in hermeneutic and epistemological approaches to comprehending the Zimbabwean crisis Life Writing from the Margins in Zimbabwe centres the experiences and memories of ordinary Zimbabweans in pluralizing modes of seeing and knowing the crisis The book argues that these life writings present a rich site for encountering versions of the crisis that relate in counter discursive ways to the dominant state authored narrative of the nation in crisis Oliver Nyambi s analysis contributes new ideas to ongoing debates about how cultural texts reflect on the postcoloniality of both power and experiences and negotiations of power in the context of crisis This book will be of interest to scholars and students of African literature Zimbabwean African studies postcolonial literature life writing and cultural studies
