Research Data Access and Management in Modern Libraries Bhardwaj, Raj Kumar, Banks, Paul, 2019-05-15

Handling and archiving data should be done in a highly professional and quality controlled manner. For academic and research libraries, it is required to know how to document data and support traceability as well as to make it reusable and productive. However, these institutions have different requirements relating to the archiving and reusability of data. Therefore, a comprehensive source of information is required to understand data access and management within these organizations. *Research Data Access and Management in Modern Libraries* is a critical scholarly resource that delves into innovative data management strategies and strategy implementation in library settings and provides best practices to stakeholders using the latest tools and technology. It further explores concepts such as research data management, data access, data preservation, building document and data institutional repositories, applications of Web 2.0 tools, mobile technology applications in data access, and conducting information literacy programs. This book is ideal for librarians, information specialists, research

scholars, students, IT managers, computer scientists, policymakers, educators, and academic administrators. **Management and Innovation in the Media Industry** Cinzia Dal Zotto, Hans van Kranenburg, 2008-12-28. This comprehensive book covers relevant issues on how media companies are currently embracing innovation, the levels at which they are doing so, and how innovation can help media companies to meet their development needs in the future. The primary focus of this study is the relationship between management and innovation in the media industry. The book evaluates the importance and the role of innovation within the media industry and helps identify and evaluate the drivers of innovation. The contributors demonstrate and build upon an understanding of the issues and strategies that bind media firms to new processes and technologies and offer clear guidelines on how media companies can accelerate growth through effective internal and external collaboration. *Management and Innovation in the Media Industry* highlights those issues that influence strategies, organizational structures, media content management, and public interest within media firms. This unique study offers both new theoretical and empirical insights on decision-making aspects of innovation relevant for those executives and policy makers operating within the media or related industries. It will be of great interest to academics and students in the fields of communication and journalism, as well as innovation management. Media and Change Management Matthias Karmasin, Sandra Diehl, Isabell

Koinig, 2022-02-15.
