One Good Run The Legend Of Burt Munro:

One Good Run Tim Hanna, 2011 Large Print **One Good Run** Tim Hanna, 2006 This is the story of a Kiwi motorcycling legend backyard engineering genius and land speed record holder He was the archetypal eccentric inventor who modified an original Indian motorbike in his shed making it capable of extreme speeds From small town New Zealand in the 1920s to heroic accomplishments in the USA Munro was still inventing up until his death in 1978 Burt Munro Neill Birss, 2016-06-13 Previously unpublished interviews with Burt Munro legendary Kiwi motorcycle rider made famous in the movie *The World's Fastest Indian* Colourful tales of a life well lived Invercargill at the far southern end of New Zealand It's the late 1960s and two blokes sit in a modest shed drinking tea The old bloke is telling stories about his life the young bloke a junior reporter is typing earnestly on his Olympia portable typewriter Dramatic tales abound of youthful scrapes motorcycle races and ingenious repairs of international travel and friendships and road trips of high speeds and accidents and meetings with dutiful policemen Burt Munro became known around the world through the 2005 movie *The World's Fastest Indian* but had long been known to motorcycle fans as a colourful character and speed record holder Our young journalist Neill Birss moved away from Invercargill and the interviews he had typed out were never published In fact they were lost during the move and only resurfaced under strange circumstances many decades later Here they are in this book the lost interviews with Burt Munro legendary Kiwi motorcycle rider his voice as fresh and his stories as vivid as the day he told them to the young reporter An Alternative History of Bicycles and Motorcycles Steven E. Alford, Suzanne Ferriss, 2016-04-06 An Alternative History of Bicycles and Motorcycles Two Wheeled Transportation and Material Culture accounts for the nineteenth century creation and development of two wheeled vehicles both human powered and motorized Specifically the book focuses on the period from 1885 which saw the appearance simultaneously of the Safety bicycle and the Einspur the first motorcycle to 1920 while exploring implications for later bicycling and motorcycling We argue that invention of these vehicles rather than the product of gifted individuals should be seen as the consequence of a number of historical economic cultural and political forces that intersect so unpredictably that the notion of a genius inventor is reductive The common evolutionary model of development from the bicycle to the motorcycle oversimplifies both the technology and its origins Stripping the vehicles of all their material and cultural associations such a model fails to advance our understanding of the devices their creators and their riders Taking a contemporary vehicle and tracing its lineage creates a false sense of evolutionary necessity in its creation and fails to account for the many possible developmental paths that were for whatever reason abandoned By contrast our book adopts a material culture approach a form of inquiry that stresses the connections between artifacts and social relations We consider not simply the bicycle and motorcycle as material objects but focus also on the complex socio political and economic convergences that produced the materials materials that in turn themselves shaped the vehicles appearance function and adoption by riders **Kelly Moran** Brian Burford, 2014-06-02 This is the book that

speedway fans the world over have been waiting for the inside story of the Californian hell raiser Kelly Moran The charismatic American was one of the most spectacular and naturally talented riders to race speedway and very few share that incredible ability which ensured that he performed at the highest level for most of his career A three times World Finalist double World Team Champion and US National Champion Kelly's talent as a racer took him around the world while his exploits off the track have become legendary making him one of the most popular riders ever From leading the USA to world glory via a near death hotel accident to joy riding in a president's bus Brian Burford's new book mixes the legendary tales of excess off the track with the success and popularity on the race circuit With contributions from his family friends and rivals and written by one his closest friends this book finally brings you the real story of Kelly Moran *Historical Dictionary of New Zealand* Janine Hayward, Richard Shaw, Lara Greaves, Claire Timperley, 2024-11-19 The Historical Dictionary of New Zealand Fourth Edition provides a broad introduction to New Zealand as well as rich detail about the people events laws concepts and institutions that have shaped New Zealand history This is done through a chronology an introduction and an extensive bibliography The dictionary section has more than 800 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about New Zealand Sport and the New Zealanders Greg Ryan, Geoff Watson, 2018-08-09 A history of New Zealanders and the sports that we have made our own from the Maori world to today's professional athletes in the pubs during the furious session between 5pm and closing time an hour later the friend of a relative of a horse trainer is a veritable patriarch No matador in Madrid no tenor in Turin could be sure of such flattering attention As Brittenden suggested sport has played a central part in the social and cultural history of Aotearoa New Zealand throughout its history This book tells the story of sport in New Zealand for the first time from the Maori world to today's professional athletes Through rugby and netball bodybuilding and surf lifesaving the book introduces readers to the history of the codes the organisations and the players It takes us into the stands and on to the sidelines to examine the meaning of sport to its participants its followers and to the communities to which they belonged Why did rugby become much more important than soccer in New Zealand What role have Maori played in our sporting life Do we really punch above our weight in international sport Does sport still define our national identity Viewing New Zealand sport as activity and as imagination Sport and the New Zealanders is a major history of a central strand of New Zealand life **Legend of Speed** Tim Hanna, 2007 Munro was the ultimate eccentric a real number eight wire inventor He took an original Indian motorbike and modified it in his shed so that it became capable of extreme speeds With this bike he broke several international speed records at the Bonneville Salt Flats in Utah in 1967 a number of which stand to this day This book an abridged edition of the bestselling One Good Run the Legend of Burt Munro is for young readers aged 10-14 yrs It cuts to the core of Munro's story from small town Invercargill to heroic deeds in the USA The emphasis is on thrilling narrative in this little guy beats the odds
