

"Heart-pounding . . . a book that infuses one with renewed
passion, determination, and hope."

—AMY TAN, author of *The Joy Luck Club* and *The Valley of Amusement*

BLOOD OF THE TIGER

A Story of Conspiracy,
Greed, and the Battle to Save
a Magnificent Species

J. A. MILLS

Online Blood Tiger Conspiracy Magnificent Species

G Psacharopoulos

Online Blood Tiger Conspiracy Magnificent Species:

Blood of the Tiger J. A. Mills, 2015-11-24 Blood of the Tiger takes readers on a wild ride to save one of the world's rarest animals from a band of Chinese billionaires. Many people think wild tigers are on the road to recovery but they are in greater danger than ever from a menace few experts saw coming. There may be only three thousand wild tigers left in the entire world. More shocking is the fact that twice that many, some six thousand, have been bred on farms not for traditional medicine but to supply a luxury goods industry that secretly sells tiger bone wine, tiger skin décor, and exotic cuisine enjoyed by China's elite. Two decades ago, international wildlife investigator J. A. Mills went undercover to expose bear farming in China and discovered the plot to turn tigers into nothing more than livestock. Thus begins the story of a personal crusade in which Mills mobilizes international forces to awaken the world to a conspiracy so pervasive that it threatens every last tiger in the wild. In this memoir of triumph, heartbreak, and geopolitical intrigue, Mills and a host of heroic comrades try to thwart a Chinese cadre's plan to launch billion-dollar industries banking on the extinction of not just wild tigers but also elephants and rhinos. Her journey takes her across Asia into the jungles of India and Nepal to Russia and Africa, traveling by means from elephant back to presidential motorcade in the company of man-eaters, movie stars, and world leaders. She also journeys to the US where we meet people like Carole Baskin of Big Cat Rescue who work tirelessly to end cub petting and ban private ownership and breeding of tigers and other big cats. She finds reason for hope in the increasing number of Chinese who do not want the blood of the last wild tigers to stain their beloved culture and motherland. Set against the backdrop of China's ascendance to world dominance, Blood of the Tiger tells of a global fight to rein in the forces of greed on behalf of one of the world's most treasured and endangered animals.

China Robert B. Marks, 2017-02-13 This deeply informed and clearly written text provides a comprehensive and comprehensible history of China from prehistory to the present. Now updated to include recent political events and scientific research, the book focuses on the interaction of humans and their environment. Tracing changes in the physical and cultural world that is home to a fifth of humankind, Robert B. Marks illuminates the paradoxes inherent in China's environmental narrative, demonstrating how historically sustainable practices can in fact be profoundly ecologically unsound. The author also reevaluates China's traditional heroic storyline, highlighting the marginalization of nature and contacts with other peoples that followed the spread of Chinese civilization while examining the development of a distinctly Chinese way of relating to and altering the environment. Unmatched in his ability to synthesize a complex subject clearly and cogently, Marks has written an accessible yet nuanced history for any student interested in China's past or present or indeed in the world's environmental future.

Poached Rachel Love Nuwer, 2025-04-08 An intrepid investigation of the criminal world of wildlife trafficking: the poachers, the traders, and the customers, and of those fighting against it. Journalist Rachel Nuwer plunges the reader into the underground of global wildlife trafficking, a topic she has been investigating for nearly a decade. Our insatiable demand for animals for jewelry, pets, medicine,

meat trophies and fur is driving a worldwide poaching epidemic threatening the continued existence of countless species. Illegal wildlife trade now ranks among the largest contraband industries in the world yet compared to drug arms or human trafficking the wildlife crisis has received scant attention and support leaving it up to passionate individuals fighting on the ground to try to ensure that elephants tigers rhinos and more are still around for future generations. As *Reefer Madness* Schlosser took us into the drug market or Susan Orlean descended into the swampy obsessions of *The Orchid Thief* Nuwer an award winning science journalist with a background in ecology takes readers on a narrative journey to the front lines of the trade to killing fields in Africa traditional medicine black markets in China and wild meat restaurants in Vietnam. Through exhaustive first hand reporting that took her to ten countries Nuwer explores the forces currently driving demand for animals and their parts the toll that demand is extracting on species across the planet and the conservationists rangers and activists who believe it is not too late to stop the impending extinctions. More than a depressing list of statistics *Poached* is the story of the people who believe this is a battle that can be won that our animals are not beyond salvation. **Ebony**, 2005-11 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine. *Videohound's Golden Movie Retriever* Jim Craddock, 2006 Describes and rates more than twenty thousand videos and provides indexes by theme awards actors actresses and directors.
