Spyros, Mike Hajimichael,2017-08-15 Can an individual act of suicide be socially significant or does it present too many imponderable features This book examines suicide like no other Unconcerned with the individual dispositions that lead a person to commit such an act Usurping Suicide focuses on the reception suicides have produced their political social and cultural implications How does a particular act of suicide enable a collective significance to be attached to it And what contextual circumstances predispose a politicised public response From Mohamed Bouazizi s self immolation during regime change in Tunisia to Dimitris Christoulas s public shooting at a time of increased political upheaval in Greece and beyond this remarkable work examines how the individuality of the act of suicide poses a disturbing symbolic conundrum for the dominant liberal order

Are there existing alternatives to corporate globalization What are the prospects for and commonalities between communities and movements such as Occupy the World Social Forum and alternative economies Globalization Development

and Social Justice advances the proposition that another globalization is not only possible but already exists. It demonstrates that there are multiple pathways towards development with social justice and argues that enabling propositional agency rather than oppositional agency such as resistance is a more effective alternative to neoliberal globalization. El Khoury develops a theory of infraglobalization that emphasizes creative constitution not just contestation of global and local processes. The book features case studies and examples of diverse economic practice and innovative emergent political forms from the Global South and North. These case studies are located in the informal social economy and community development as well as everyday practices from prefigurative politics to community cooperatives and participatory planning. This book makes an important contribution to debates about the prospects for and practices of a transformative grassroots globalization and to critical debates about globalization and development strategies. It will be of interest to students and scholars of international relations, globalization, social movement studies, political and economic geography, sociology, anthropology, and development studies.
