Unfinished Kelly Baum, Andrea Bayer, Sheena Wagstaff, 2016-03-01 This groundbreaking book explores the evolving concept of unfinishedness as essential to understanding art movements from the Renaissance to the present day Unfinished features more than 200 works created in a variety of media by artists ranging from Leonardo Titian Rembrandt Turner and Cézanne to Picasso Warhol Twombly Freud Richter and Nauman What unites these works across centuries and media is that each one displays some aspect of being unfinished Essays and case studies by major contemporary scholars address this key concept from the perspective of both the creator and the viewer probing the impact that this long artistic trajectory which can be traced back to the first century has had on modern and contemporary art The book investigates the degrees to which instances of incompleteness were accidental or intentional experimental or conceptual Also included are illuminating interviews with contemporary artists including Tuymans Celmins and Marden and parallel considerations of the unfinished in literature and film The result is a multidisciplinary approach and thought provoking analysis that provide valuable insight into the making meaning and critical reception of the unfinished in art *Looking at Men* Anthea Callen, 2018-01-01

Beginning in 1800 *Looking at Men* explores how the modern male body was forged through the intimately linked professions of art and medicine which deployed muscular models and martial arts to renew the beau idéal This ideal of the virile body derived from the athletic perfection found in the classical male nude The study of human anatomy and dissection in both art and medicine underpinned a modern gladiatorial ideal its representations setting the parameters not just of normal virile masculinity but also its abject other Through the shared violence of human dissection and martial arts male artists and medics secured their professional privilege and authority on the bodies of roughs First and foremost visual this process has literary parallels in *Frankenstein* and *Jekyll and Hyde* While embodying signs of dominant power and signalling differences of race class gender and sexuality the virile masculine ideal contained its shadow the threat of loss of a Darwinian degeneration that required vigilant intervention to ensure the health of nations Anthea Callen's lively and intelligent study casts a new eye on contributions by many lesser known artists as well as more familiar works by Géricault Courbet Dalou and Bazille through

to Eakins Thornycroft Leighton and Tonks and includes images that draw on photography and the popular visual cultures of boxing wrestling and bodybuilding Callen reassesses ideas of the modern male body and virile manhood in this exploration of the heteronormative the homosocial and the homoerotic in art anatomy and nascent anthropology *Delacroix and the Rise of Modern Art* Patrick J.
