

THE FOLD

A NOVEL

PETER CLINES

AUTHOR OF EX-HEROES
AND 14

"A must-read . . . an intelligent,
exciting story with a brilliant
protagonist and a mystery that
genuinely surprised me."
—ANDY WEIR, *New York Times*
Bestselling author of *THE MARTIAN*

Online Fold Peter Clines

Sabine Zange

Online Fold Peter Clines:

The Fold Peter Clines, 2016-03-01 A page turning science fiction thriller from the author of Paradox Bound and the Ex Heroes series Step into the fold It s perfectly safe The folks in Mike Erikson s small New England town would say he s just your average everyday guy And that s exactly how Mike likes it Sure the life he s chosen isn t much of a challenge to someone with his unique gifts but he s content with his quiet and peaceful existence That is until an old friend presents him with an irresistible mystery one that Mike is uniquely qualified to solve far out in the California desert a team of DARPA scientists has invented a device they affectionately call the Albuquerque Door Using a cryptic computer equation and magnetic fields to fold dimensions it shrinks distances so that a traveler can travel hundreds of feet with a single step The invention promises to make mankind s dreams of teleportation a reality And the scientists insist traveling through the Door is completely safe Yet evidence is mounting that this miraculous machine isn t quite what it seems and that its creators are harboring a dangerous secret As his investigations draw him deeper into the puzzle Mike begins to fear there s only one answer that makes sense And if he s right it may only be a matter of time before the project destroys everything A cunningly inventive mystery featuring a hero worthy of Sherlock Holmes and a terrifying final twist you ll never see coming The Fold is that rarest of things a genuinely page turning science fiction thriller

Cries of Crisis Robert B. Hackey, 2012-10-31 Since the late 1960s health care in the United States has been described as a system in crisis No matter their position those seeking to improve the system have relied on the rhetoric of crisis to build support for their preferred remedies to the point where the language and imagery of a health care crisis are now deeply embedded in contemporary politics and popular culture In Cries of Crisis Robert B Hackey analyzes media coverage political speeches films and television shows to demonstrate the role that language and symbolism have played in framing the health care debate shaping policy making and influencing public perceptions of problems in the health care system He demonstrates that the idea of crisis now means so many different things to so many different groups that it has ceased to have any shared meaning at all He argues that the ceaseless talk of crisis without a commonly accepted definition of that term has actually impeded efforts to diagnose and treat the chronic problems plaguing the American health care system Instead he contends reformers must embrace a new rhetorical strategy that links proposals to improve the system with deeply held American values like equality and fairness

Alternative Energy and Shale Gas Encyclopedia Jay H. Lehr, Jack Keeley, 2016-04-25 A comprehensive depository of all information relating to the scientific and technological aspects of Shale Gas and Alternative Energy Conveniently arranged by energy type including Shale Gas Wind Geothermal Solar and Hydropower Perfect first stop reference for any scientist engineer or student looking for practical and applied energy information Emphasizes practical applications of existing technologies from design and maintenance to operating and troubleshooting of energy systems and equipment Features concise yet complete entries making it easy for users to find the required information quickly without the need to
