Theory of Philosophical Consciencism Dompere, Kofi Kissi, 2017-09-24 In the Theory of Philosophical Consciencism Professor Dompere establishes how Nkrumah used the theory of categorical conversion housing the necessary conditions of transformation to design strategies for creating the sufficient conditions for socio political transformations The theory of Philosophical Consciencism is about the institutionally destruction creation process for socio political transformation The theory shows the scientific contributions of Nkrumah's thinking to the solution of the transformation problem in science and its application to social systemicity where Nkrumah's analytical weapons were drawn from African conceptual system The theory is developed as logico mathematical foundations that guide the internal management of the command control decision choice systems for creative destruction of socio political varieties in transformations through the development of qualitative mathematics making possible the construct of qualitative equations of motion for connecting varieties in qualitative transfers The qualitative equations of motion through the Philosophical Consciencism constitute the sufficient conditions for transformations The theory links rationality intentionality experiential information structure defective deceptive information structures in the control dynamic games of power and dominance by the duals and poles under the principle of opposites with relational continua and unity relative to decision choice systems that induce negation negation transformations where paths are established by the history of success failure outcomes in the socially control dynamic zero sum games between the duals in any duality and between the poles of any actual potential polarity The main premise of the monograph is that there exists a set of sufficient conditions in support of the necessary conditions for internal transformation of socio natural varieties The theory is useful in understanding developmental processes and multi polar power zero sum games for global dominance The necessary conditions constitute the natural necessity that constrains cognitive freedom The sufficient conditions constitute cognitive freedom that must overcome the necessity in socio natural systems dynamics Had this conceptual system been familiar to African leaders the African transformation from colonialism to complete emancipation rather than neocolonialism would have been increasingly successful This holds for those seeking triumph over injustices oppression imperialism and social change in all systems

The Pan-African Imperative Michael Williams, 2021-11-14 This book argues that the principles of Pan Africanism are more important than ever in ensuring the liberation of the people Africa those at home and abroad and the rapid development of the African continent The writings and practice of Osagyefo Dr Kwame Nkrumah Ghana's first post independence prime minister and president were key in laying out a vision for post independence Africa Now in an effort to counter the deluge of neo liberal thinking that has engulfed so much of the debate on African development in recent decades Michael Williams illuminates just how important a role an Nkrumaist intellectual framework can play in providing an accurate diagnosis of and effective solution to Africa's development crisis This is done by examining Nkrumah's vision of the critical role Pan Africanism must play in the development of the continent Raising vitally important

questions about Africa's development and the quality of life of its populations this book will be a key text for researchers of African politics development studies and the Pan African movement *Africana Critical Theory* Reiland Rabaka,2009-01-16 Building on and going far beyond W E B Du Bois and the Problems of the Twenty First Century and Du Bois's Dialectics Reiland Rabaka's *Africana Critical Theory* innovatively identifies and analyzes continental and diasporan African contributions to classical and contemporary critical theory This book represents a climatic critical theoretical clincher that cogently demonstrates how Du Bois's rarely discussed dialectical thought interdisciplinarity intellectual history making radical political activism and world historical multiple liberation movement leadership helped to inaugurate a distinct Africana tradition of critical theory With chapters on W E B Du Bois C L R James Negritude Aime Cesaire and Leopold Senghor Frantz Fanon and Amilcar Cabral *Africana Critical Theory* endeavors to accessibly offer contemporary critical theorists an intellectual archaeology of the Africana tradition of critical theory and a much needed dialectical deconstruction and reconstruction of black radical politics These six seminal figures collective thought and texts clearly cuts across several disciplines and therefore closes the chasm between Africana Studies and critical theory constantly demanding that intellectuals not simply think deep thoughts develop new theories and theoretically support radical politics but be and constantly become political activists social organizers and cultural workers that is folk the Italian critical theorist Antonio Gramsci referred to as organic intellectuals In this sense then the series of studies gathered in *Africana Critical Theory* contribute not only to African Studies African American Studies Caribbean Studies Cultural Studies Gender Studies and Postcolonial Studies but also to contemporary critical theoretical discourse across an amazingly wide range of traditional disciplines and radical political activism outside of and in many instances absolutely against Europe's ivory towers and the absurdities of the American academy *Global Marxism* Simin Fadaee,2024-09-10 A cutting edge exploration of how Marx's ideas have been adopted and adapted by revolutionary thinkers in the Global South For much of the twentieth century the ideas of Karl Marx provided the backbone for social justice around the world But today the legacy of Marxism is contested with some seeing it as Eurocentric and irrelevant to the wider global struggle In *Global Marxism* Simin Fadaee argues that Marxism remains a living tradition and the cornerstone of revolutionary theory and practice in the Global South She explores the lives ideas and legacies of a group of revolutionaries who played an exceptional role in contributing to counter hegemonic change Figures such as Ho Chi Minh Kwame Nkrumah Ali Shariati and Subcomandante Marcos did not simply accept the version of Marxism that was given to them they adapted it to local conditions and contexts In doing this they demonstrated that Marxism is not a rigid set of propositions but an evolving force whose transformative potential remains enormous This global Marxism has much to teach us in the never ending task of grasping the changing historical conditions of capitalism and the complex world in which we live *Black Iconography and Colonial (re)production at the ICC* Stanley Mwangi Wanjiru,2022-11-25 This book explores the reproduction of colonialism at the International Criminal Court ICC and examines

international criminal law ICL vs the black body through an immersive format of art music poetry and architecture and post colonial critical race theory lens Taking a multi disciplinary approach the book interrogates the operationalisation of the Rome Statute to detail a Eurocentric hegemony at the core of ICL It explores how colonialism and slavery have come to shape ICL exposing the perpetuation of the colonial and warns that it has ominous contemporary and future implications for Africa As currently envisaged and acted out at the ICC this law is founded on deceptive and colonial ideas of what is wrong in with the world The book finds that the contemporary ICL regime is founded on white supremacy that corrupts the law s interaction with the African The African is but a unit utilised by the global elite to exploit and extract resources From time to time these alliances disintegrate with ICL becoming a retaliatory tool of choice What is at stake is power not justice This power has been hierarchical with Eurocentrism at the top throughout modern history Colonialism is seen not to have ended but to have regerminated through the foundation of the independent African state The ICC reproduces the colonial by use of European law and ultimately the over representation of the black accused To conclude the book provides a liberated African forum that can address conflicts in the content with a call for the end of the ICC s involvement in Africa The demand is made for an African court that utilises non colonising African norms which are uniquely suited to address local conflicts Multidisciplinary in nature this book will be of great interest to students and scholars of international criminal law criminal justice human rights law African studies global social justice sociology anthropology postcolonial studies and philosophy

Concepts of Cabralism Reiland Rabaka, 2014-07-16 By examining Amílcar Cabral's theories and praxes as well as several of the antecedents and major influences on the evolution of his radical politics and critical social theory *Concepts of Cabralism* Amílcar Cabral and *Africana Critical Theory* simultaneously reintroduces chronicles and analyzes several of the core characteristics of the *Africana* tradition of critical theory Reiland Rabaka's primary preoccupation is with Cabral's theoretical and political legacies that is to say with the ways in which he constructed deconstructed and reconstructed theory and the aims objectives and concrete outcomes of his theoretical applications and discursive practices The book begins with the Negritude Movement and specifically the work of Léopold Senghor Aimé Césaire and Jean Paul Sartre Next it shifts the

focus to Frantz Fanon's discourse on radical disalienation and revolutionary decolonization. Finally, it offers an extended engagement of Cabral's critical theory and contributions to the African tradition of critical theory. Ultimately, *Concepts of Cabralism* chronicles and critiques, revisits and revises the black radical tradition with an eye toward the ways in which classical black radicalism informs or should inform not only contemporary black radicalism, African nationalism, and Pan-Africanism, but also contemporary efforts to create a new anti-racist, anti-sexist, anti-capitalist, anti-colonialist, and anti-imperialist critical theory of contemporary society, what has come to be called African critical theory.

The author's panoramic vision encompasses Ireland, the United Kingdom, the United States, Algeria, Israel, Palestine, and China. Timely, lively, and accessible, this book speaks directly to some of the main preoccupations of our era. Readers will be encouraged to relate developments in social work to key themes circulating around migration, the threat of neo-fascism, surveillance, culture, colonialism, the Black Lives Matter movement, and the COVID-19 pandemic. Imbued with a sense of hope for a brighter future, this book encourages a new generation of social work students to recognise and examine the importance of critical theory for understanding the structural forces shaping their lives and the lives of those with whom they work and provide services. Creolizing Rosa Luxemburg Jane Anna Gordon, Drucilla Cornell, 2021-04-21. Rosa Luxemburg is

unquestionably the most important historical European woman Marxist theorist. Significantly for the purpose of creolizing the canon she considered her continent and the globe from an Eastern Europe that was in constant flux and turmoil. From this relatively peripheral location she was far less parochial than many of her more centrally located interlocutors and peers. Indeed, Luxemburg's work touched on all the burning issues of her time and ours: from analysis of concrete revolutionary struggles such as those in Poland and Russia to showing through her analysis of primitive accumulation that anti-capitalist and anti-colonial struggles had to be intertwined to considerations of state sovereignty, democracy, feminism, and racism. She thereby offered reflections that can usefully be taken up and reworked by writers facing continuous and new challenges to undo relations of exploitation through radical economic and social transformation. Luxemburg touches on all aspects of what constitutes revolution in her work; the authors of this volume show us that by creolizing Luxemburg we can open up new paths of understanding the complexities of revolution.

Black Power Encyclopedia Akinyele Umoja, Karin L. Stanford, Jasmin A. Young, 2018-07-11. An invaluable resource that documents the Black Power Movement by its cultural representation and promotion of self-determination and self-defense and showcases the movement's influence on Black communities in America from 1965 to the mid-1970s. Unlike the Civil Rights Movement's emphasis on the rhetoric and practice of nonviolence and social and political goal of integration, Black Power was defined by the promotion of Black self-determination, Black consciousness, independent Black politics, and the practice of armed self-defense. Black Power changed communities, curriculums, and culture in the United States and served as an inspiration for social justice internationally. This unique two-volume set provides readers with an understanding of Black Power's important role in the turbulence, social change, and politics of the 1960s and 1970s in America and how the concepts of the movement continue to influence contemporary Black politics, culture, and identity. Cross-disciplinary and broad in its approach, *Black Power Encyclopedia* From *Black Is Beautiful* to *Urban Uprisings* explores the emergence and evolution of the Black Power Movement in the United States some 50 years ago. The entries examine the key players, organizations, and institutions, trends, and events of the period, enabling readers to better understand the ways in which African Americans broke through racial barriers, developed a positive identity, and began to feel united through racial pride and the formation of important social change organizations. The encyclopedia also covers the important impact of the more militant segments of the movement such as Malcolm X and the Nation of Islam and the Black Panthers.
