AI Needs You Verity Harding,2025-08-19 A humanist manifesto for the age of AI Artificial intelligence may be the most transformative technology of our time As AI s power grows so does the need to figure out what and who this technology is really for AI Needs You argues that it is critical for society to take the lead in answering this urgent question and ensuring that AI fulfills its promise Verity Harding draws inspiring lessons from the histories of three twentieth century tech revolutions the space race in vitro fertilization and the internet to empower each of us to join the conversation about AI and its possible futures Sharing her perspective as a leading insider in technology and politics she rejects the dominant narrative which often likens AI s advent to that of the atomic bomb History points the way to an achievable future in which democratically determined values guide AI to be peaceful in its intent to embrace limitations to serve purpose not profit and to be firmly rooted in societal trust Now with a new foreword by the author AI Needs You gives us hope that we the people can imbue AI with a deep intentionality that reflects our best values ideals and interests and that serves the public good AI will permeate our lives in unforeseeable ways but it is clear that the shape of AI s future and of our own cannot be left only to those building it It is up to us to guide this technology away from our worst fears and toward a future that we can trust and believe in

The Urgent Need for Regulation of Satellite Mega-constellations in Outer Space Scott Millwood, 2023-02-21 This book calls for the urgent regulation of satellite mega constellations in outer space proposing a new model of international regulatory coordination in order to ensure the sustainable balance of science and advanced telecommunications We are currently witnessing expansion of the Internet off our planet The proliferation of new space based internet connectivity has been accompanied by much discussion about the potential impact on astronomy Scientists are increasingly concerned that mega constellations proposed by SpaceX OneWeb Amazon and Facebook might wreak havoc on scientific research and transform our view of the stars These commercial operators plan to launch hundreds of thousands of satellites into Low Earth Orbit LEO in the coming decade representing a 1000% increase on objects currently in orbit This book examines this new space race in the context of historical rivalries for it is clear that mega constellations are being actively pursued by a US administration determined to dominate LEO as tensions with China rise This creates a risk of interference with earth based scientific activities that use optical and radio frequency techniques to study the universe This book examines these developments in the context of the Outer Space Treaty OST which provides all States with the freedom of scientific investigation exploration and use of outer space while balancing this with obligations to avoid interference with the space activities of other States It draws upon interviews with some of Europe's leading astronomers in order to highlight the extent to which the issue will require legal and regulatory reform of mega constellation licensing processes to ensure the integrity of astronomical science is preserved The race to dominate LEO also comes at a time when the monopolistic power of Facebook Amazon and other TechGiants is

under renewed scrutiny in western democracies The author argues that a new governance framework for launch and operational licenses is urgently required in which impact risk assessments scale and proportionality and stakeholder consultation processes should play important roles It is now vital that the astronomical community whose skill set does not generally involve leading regulatory strategies engage with those who can support its leadership in exerting a renewed influence The diplomacy of science which played a vital role during the Cold War and the establishment of global commons must be reinvigorated for the New Space era It is now vital that the astronomical community whose skill set does not generally involve leading regulatory strategies engage with those who can support its leadership in exerting a renewed influence The diplomacy of science which played a vital role during the Cold War and the establishment of global commons must be reinvigorated for the New Space era It is now vital that the astronomical community whose skill set does not generally involve leading regulatory strategies engage with those who can support its leadership in exerting a renewed influence The diplomacy of science which played a vital role during the Cold War and the establishment of global commons must be reinvigorated for the New Space era It is now vital that the astronomical community whose skill set does not generally involve leading regulatory strategies engage with those who can support its leadership in exerting a renewed influence The diplomacy of science which played a vital role during the Cold War and the establishment of global commons must be reinvigorated for the New Space era It is now vital that the astronomical community whose skill set does not generally involve leading regulatory strategies engage with those who can support its leadership in exerting a renewed influence The diplomacy of science which played a vital role during the Cold War and the establishment of global commons must be reinvigorated for the New Space era It is now vital that the astronomical community whose skill set does not generally involve leading regulatory strategies engage with those who can support its leadership in exerting a renewed influence The diplomacy of science which played a vital role during the Cold War and the establishment of global commons must be reinvigorated for the New Space era It is now vital that the astronomical community whose skill set does not generally involve leading regulatory strategies engage with those who can support its leadership in exerting a renewed influence The diplomacy of science which played a vital role during the Cold War and the establishment of global commons must be reinvigorated for the New Space era It is now vital that the astronomical community whose skill set does not generally involve leading regulatory strategies engage with those who can support its leadership in exerting a renewed influence The diplomacy of science which played a vital role during the Cold War and the establishment of global commons must be reinvigorated for the New Space era It is now vital that the astronomical community whose skill set does not generally involve leading regulatory strategies engage with those who can support its leadership in exerting a renewed influence

Guy, Marilyn M.

Rubin, 2015-03-02 Public Administration Evolving From Foundations to the Future demonstrates how the theory and practice of public administration has evolved since the early decades of the twentieth century Each chapter approaches the field from a unique perspective and describes the seminal events that have been influential in shaping its evolution This book presents major trends in theory and practice in the field provides an overview of its intellectual development and demonstrates how it has professionalized The range from modernism to metamodernism is reflected from the perspective of accomplished scholars in the field each of whom captures the history environment and development of a particular dimension of public administration Taken together the chapters leave us with an understanding of where we are today and a grounding for forecasting the future A Long Cold War Jerry Carrier, 2017-11-10 A Long Cold War is a two volume cultural history of

Cold War America from 1945 to 1991 This is the story of America at her peak as a world power with the fear of nuclear war and the hyper competition with the USSR and China a good read for the historical nostalgic or even casual reader

Understanding the Cold War Elspeth O'Riordan, 2022-09-29 This book provides an advanced introduction to the Cold War assessing its origins development and conclusion as a dynamic interaction between superpower confrontation and complex regional and local situations The evolution of the subject s scholarly debate is discussed throughout and the contest situated alongside enduring historical themes including decolonisation development nationalism and globalisation Regional case studies on Europe East and Southeast Asia Latin America and the Middle East illuminate the Cold War s global reach Thematic analysis considers competition in military strategic and economic spheres as well as in aspects of culture ideology society and Human Rights The Cold War s transnational elements and facets of international cooperation are also highlighted The book unpacks the subject s extensive scholarly discourse underlining the interdisciplinary character of today s Cold War historiography and the importance of understanding that its development has been informed by a vibrant interface between international history international relations and the Cold War itself **eCommerce and the Effects of Technology on**

Taxation Anne Michèle Bardopoulos, 2015-03-31 This book focuses on the impact of technology on taxation and deals with the broad effect of technology on diverse taxation systems It addresses the highly relevant eTax issue and argues that while VAT may not be the ultimate solution with regard to taxing electronic commerce it can be demonstrated to be the most effective solution to date The book analyzes the application and the effectiveness of traditional income tax principles in contradistinction to VAT principles Taking into account rapidly ameliorating technology the book next assesses the compatibility between electronic commerce and diverse systems of taxation Using case studies of Amazon com and Second Life as well as additional practical examples the book demonstrates the effectiveness of VAT in respect of electronic

commerce and ameliorating technology in the incalculable and borderless realm of cyberspace **The Power of the Space Club** Deganit Paikowsky, 2017-07-20 Why do nation states choose to develop national space programs How can they justify national efforts to acquire capabilities by arguing for membership of the space club This book provides a unique perspective of the past current and future of space exploration and technological development in world politics A country that sees itself as a power deserving of a seat at the table of world governance is expected to race for space Based on a rich and detailed analysis of a range of space programs of states which are not usually at the focus of world politics and its research the author shows that joining the space club is a legitimate and rational decision The book provides a different way of looking at international relations through a relatively under studied area of policy the space club **Ideas That Matter** A. C. Grayling, 2010-03-30 Ideas can and do change the world Just as Marxism existentialism and feminism shaped the last century so fundamentalism globalization and bioethics are transforming our world now In Ideas that Matter renowned philosopher A C Grayling provides a personal dictionary of the ideas that will shape our world in the decades to come With customary wit fire and erudition Grayling ranges across the gamut of essential theories movements and philosophies from animal rights to neurophilosophy to war crimes provoking and elucidating throughout Ideas are the cogs that drive history and in explaining the most complex and influential ones in laymen s terms Ideas that Matter will help every engaged citizen better understand it **Aliens in Ancient Egypt** Xaviant Haze, 2013-10-31 The alien influences behind the rise and fall of Egypt s Golden Age Explains how Akhenaten was the last pharaoh entrusted with the sacred and ancient alien knowledge of stargates free energy and antigravity technologies Reveals how the Brotherhood of the Snake a secret society of reptilian aliens sought to destroy Akhenaten and suppress the sacred knowledge of the pharaohs Explores the original purpose of the pyramids to transmit energy to expand consciousness and how they were decommissioned after the Great Flood The sophisticated civilization of ancient Egypt arose seemingly overnight complete with advanced levels of art agriculture astronomy and physics Then with the death of Pharaoh Akhenaten much of this higher knowledge was lost or suppressed But evidence of this former Golden Age the alien visitors behind its rise and those behind its decline still exists some of it in plain sight Examining the purposefully obscured reign of Akhenaten and Nefertiti Xaviant Haze explains how they represent the last dynasty with access to the sacred knowledge of stargates free energy and antigravity technologies knowledge handed down from an advanced interstellar race in the remote past He reveals how the reptilian race known as the Shemsu Hor infiltrated the Egyptian priesthood and banking systems and formed the Brotherhood of the Snake a secret society set on destroying Akhenaten s flourishing kingdom and suppressing the sacred knowledge of the pharaohs Haze examines the evidence of aliens in ancient Egypt such as the reptilian beings depicted in the Temple of Hathor and Thutmose III s alien encounter He shows how Akhenaten and his family are always portrayed with elongated skulls and explores the connection between ancient aliens and Mars including the Martian materials used in Egyptian monuments He explains the original purpose of the

pyramids to transmit uplifting energy throughout the planet to help expand consciousness and explores how they were decommissioned after the Great Flood of prehistory He reveals how the original builders of the pyramids foresaw humanity's fall from the Golden Age and strategically encoded these magnificent structures to wake humanity from the depths of the Dark Ages
