Their Rock Is Not Like Our Rock Daniel Strange, 2015-02-03. The reality of the West's post-Christendom, multiethnic, multicultural context has meant that more than ever Christians face questions posed not simply by the existence of other religions but also by their apparent flourishing. If secularization is alive and well, then so too is society's sacralization. Hence a theology of religions is arguably the most significant concern confronting Christian mission and apologetics in the twenty-first century. There has been little evangelical theology offering a detailed, comprehensive and biblically faithful analysis not only of the question of salvation but also questions of truth, the nature and history of human religiosity and a host of other issues pertaining to Christian apologetics and contextualization amid religious pluralism. In *Their Rock is Not Like Our Rock*, lecturer and vice-principal of Oak Hill College in London, Daniel Strange explores these issues and offers the beginning of a theology of other religions.

Theologies of the 21st Century David L. Smith, 2014-10-02. What theologies are popular and formative of Christian thinking in the present day? How should they be assessed by those Christians who want to be in the world without being of the world? *Theologies of the 21st Century* begins with an overview of the historical roots from which current theological thinking has developed and then moves on to a detailed evaluation of the chief doctrinal and practical emphases taking an evangelical biblical perspective that seeks to be at once both critical and irenic.

Hope and Otherness: Christian Eschatology and Interreligious Hospitality Jakob W. Wirén, 2017-11-01. In *Hope and Otherness*, Jakob Wirén analyses the place and role of the religious Other in contemporary eschatology. In connection with this theme, he examines and compares different levels of inclusion and exclusion in Christian, Muslim and Jewish eschatologies. He argues that a distinction should be made in approaches to this issue between soteriological openness and eschatological openness. By going beyond Christian theology and also looking to Muslim and Jewish sources and by combining the question of the religious Other with eschatology, Wirén explores ways of articulating Christian eschatology in light of religious otherness and provides a new and vital slant to the threefold paradigm of exclusivism, inclusivism and pluralism that has been prevalent in the theology of

religions Jakob Wir n s study pushes forward the frontiers of three disciplines all at the same time theology of religions comparative religions and eschatology This is a challenging and important book Gavin D Costa University of Bristol Professor of Catholic Theology 2017 This book explores of the status of religious others in Christian eschatology and of eschatology itself as a privileged place for reflecting on religious otherness Wir n mines not only Christian but also Jewish and Muslim sources to develop an inclusive eschatology Hope and Otherness thus represents an important contribution to both theology of religions and comparative theology Catherine Cornille Boston College Professor of Comparative Theology 2017

The Church for the World Jennifer McBride,2014-03-05 Drawing on the work of German pastor theologian Dietrich Bonhoeffer Jennifer McBride constructs a new theology of public witness for American Protestant church communities based on the public expression of repentance and redemption

Theology as Construction of Piety David T. Ngong,2013-12-10 This book argues that a primary purpose of theological discourses is to construct piety or spirituality If this is the case theologians need to constantly inquire into the kind of piety or spirituality which their work may construct Drawing from some important moments in the development of Christian theology such as the development of the Christian doctrine of God in the early church the role of material things in the Christianity of medieval Europe some elements of contemporary postliberal theology and the theology of inculturation in Africa the book argues that theological discourses that appear to be orthodox and innocuous may actually construct forms of piety that may diminish human flourishing The book therefore calls for an ethics of theology intended to ensure that the theologies we construct help in developing a piety that is conducive to human flourishing in the modern world especially for Africans who have suffered and continue to suffer unspeakable dehumanization The book proposes that a theology that may contribute to the flourishing of Africans in the modern world is one that constructs an interdisciplinary spirituality that takes both the spiritual and the scientific seriously

Under the Oak Tree Ronald

J. Allen, John S. McClure, O. Wesley Allen Jr., 2013-11-06 Two trends in the early twenty first century intersect to give this volume immediate relevance 1 The emerging postmodern ethos in North America is calling into question many things we have taken for granted including the purposes of the church and 2 our time is increasingly fractious as groups with distinct worldviews become polarized and often antagonistic Eleven noted contributors join a growing current that sees conversation as an image to refresh our thinking about the nature and purpose of the church and as a process in which individuals and communities with different perspectives come together for real understanding Under the Oak Tree employs the image of Sarah and Abraham greeting three visitors under the Oaks of Mamre as an image for the church as a community of conversation a community that opens itself to the otherness of the Bible voices in history and tradition others in the contemporary social and ecological worlds Furthermore the book shows how conversation can lead the church to action The book takes a practical approach by exploring how conversation can shape key parts of the church's life Topics include preaching worship formation evangelism pastoral care mission and ecumenism social witness and the relationship of Christianity to other religions Foundational chapters consider God as conversational the church as community of conversation and the minister as conversation leader Biblical Eschatology, Second Edition Jonathan Menn, 2018-03-07 Biblical Eschatology provides what is not found in any other single volume on eschatology it analyzes all the major eschatological passages including the Olivet Discourse and the book of Revelation issues including the second coming of Christ the millennium the rapture and Antichrist and positions including all the major views of the millennium in a clear but not superficial way The book concludes with a chapter showing how eschatology is relevant for our lives Biblical Eschatology makes understanding eschatology easier by including chapters on how to interpret prophecy and apocalyptic literature by showing the history of eschatological thought and by placing eschatology in the context of the Bible's overall story line and structure Clarity and understanding are enhanced by the use of comparative tables and appendices Subject and Scripture indexes are included The book interacts with the best of Evangelical and Reformed scholarship and the extensive bibliography which includes the web addresses of many online resources provides an excellent source for the reader's further study This is a perfect resource for intelligent Christians including pastors students and teachers who desire to understand eschatology and to see how it fits together with the rest of the Bible **A House Divided** Geoffrey W. Sutton, 2016-03-29 A House Divided helps answer the question how do Christians form moral judgments about sex linked issues After analyzing key differences between conservative and progressive Christians on such divisive issues as abortion sex education and same sex marriage readers will learn how a combination of four factors can lead to principled Christian morality First a review of diverse interpretive comments on relevant Scriptures can help identify a foundation for agreement as well as sharpen differences Second a review of psychological factors can help identify prejudices personality traits and powerful emotions that intensify and color public debate Third new research on moral psychology will add six dimensions of analysis to

appreciating the reasons conservatives and progressives draw upon when forming moral judgments And finally knowledge about sexual attraction sexual orientation conception and sexual health is vital to thinking ethically about the specific issues addressed in this book

Way to Water L. Callid Keefe-Perry, 2014-09-10 *Way to Water* has two primary intentions to trace the development of the nascent field of theological inquiry known as theopoetics and to make an argument that theopoetics provides both theological and practical resources for contemporary people of faith who seek to maintain a confessional Christian life that is also intellectually critical Beginning with the work of Stanley Hopper in the late 1960s and addressing the early scholarship of key theopoetics authors like Rubem Alves and Amos Wilder this text explores how theopoetics was originally developed as a response to the American death of God movement and has since grown into a method for engaging in theological thought in a way that more fully honors embodiment and aesthetic dimensions of human experience Most of the extant literature in the field is addressed to allow for a cumulative and comprehensive articulation of the nature and function of theopoetics The text includes an exploration of how theopoetic insights might aid in the development of tangible church practices and concludes with a series of theopoetic reflections

Interreligious Learning and Teaching Mary E. Hess, Kristin Johnston Largent, Christy Lohr Sapp, 2014-11-01 There is still resistance in Christian institutions to interreligious dialogue Many feel that such a practice weakens Christian faith and promotes the idea that Christianity is merely one among many different religious options When it comes to higher education there is the fear that both college and seminary students will lose their faith if they are invited to study other religious traditions from a positive perspective Unfortunately this attitude belies the current culture in which we live which constantly exposes us to the beliefs and practices of others Kristin Johnston Largent sees this setting as an opportunity and seeks to provide not only the theological grounding for such a position but also some practical advice on how both to teach and live out this conviction in a way that promotes greater understanding and respect for others and engenders a deeper appreciation of ones own faith tradition Largent's synopsis of interreligious education and suggested action includes contributions by Mary E Hess and Christy Lohr Sapp Hess and Sapp provide practical commentary regarding the successful implementation of Largent's proposed approach As a group Largent Hess and Sapp create a text that extends pedagogical innovation in inspiring but practical ways
