Charles, Janet H. Caldwell, Mary C. Cavanagh, Pearson/Scott Foresman, 2011 *Elementary Mathematics Curriculum Materials* Janine T. Remillard, Ok-Kyeong Kim, 2020-03-16 The book presents comparative analyses of five elementary mathematics curriculum programs used in the U S from three different perspectives the mathematical emphasis the pedagogical approaches and how authors communicate with teachers These perspectives comprise a framework for examining what curriculum materials are comprised of what is involved in reading and interpreting them and how curriculum authors can and do support teachers in this process Although the focus of the analysis is 5 programs used at a particular point in time this framework extends beyond these specific programs and illuminates the complexity of curriculum materials and their role in teaching in general Our analysis of the mathematical emphasis considers how the mathematics content is presented in each program in terms of sequencing the nature of mathematical tasks cognitive demand and ongoing practice and the way representations are used Our analysis of the pedagogical approach examines explicit and implicit messages about how students should interact with mathematics one another the teacher and the textbook around these mathematical ideas as well as the role of the teacher In order to examine how curriculum authors support teachers we analyze how they communicate with teachers and what they communicate about including the underlying mathematics noticing student thinking and rationale for design elements The volume includes a chapter on curriculum design decisions based on interviews with curriculum authors **This is Only a Test** Nancy Litton, Maryann Wickett, 2009 Guides teachers in planning instruction that takes standardized testing into account while staying focused on a curriculum that encourages students to love and understand mathematics Provided by publisher **Solving Math Problems** Field Stone Publishers, 2008 *Math for All Participant Book (3-5)* Babette Moeller, Barbara Dubitsky, Marvin Cohen, Karen Marschke-Tobier, Hal Melnick, Linda Metnitsky, 2011-08-22 A mathematics professional development program for inclusive classrooms This professional development program shows general and special education teachers how to collaborate to provide a high quality standards based mathematics education to all students including those with disabilities This book includes the handouts and reproducibles for the program The corresponding kit includes a facilitator's guide and a companion DVD The Math for All learning experiences help teachers Assess students strengths and needs Use multiple instructional strategies to teach specific math concepts Tailor lessons based on individual students strengths and needs to help them achieve high quality learning outcomes in mathematics Multifaceted Assessment for Early Childhood Education Robert J.
