#### **Palm and finger Chakras**

The chakras in the palms of the hands are often relegated to minor status.

They are of great value in daily life and must be open and active for sharing Reiki treatments and other healing energies .

These chakras transmit healing energy and receive energetic information from the universe. The palm chakras are used to channel healing energies to yourself and others and to receive impressions of the energy of a room, person, situation, etc. These chakras make a major difference in the quality of life when they can be opened by intention. practice in becoming aware of the energy of the palm chakras is essential if you are at all interested in energy work and spiritual healing. healing chakras also activate in the fingertips.

#### **Transpersonal chakras**

The most important of the transpersonal chakras are the thymus or etheric heart in the upper chest which governs compassion and inner peace and the connection to world soul. The Soul Star about a foot above the head which brings in spiritual energy from the spiritual core and helps us connect with spiritual energy and information.

The Earth Star about a foot below our feet that brings in and connects us to the Earth energies and information . It is important to develop the Soul Star and Earth Star simultaneously.

The Tan Tein or Hara located about two finger widths below the navel on most people is a vital center for connection and storage of vital energies and concrete awareness of the spiritual.

The most important evolution happening at this time in the energy body is the unification of the chakra functions all the chakras are beginning to work together more than in the past. The Reiki treatments and Attunements from the author include attunement to help with harmonizing the chakras.

#### **Energy Balls and other non Reiki energy exercises**

Energy balls are not a standard Reiki practice but can be a useful way to develop your awareness of energy.

This exercise helps us become more aware of the energy field around us, and the influence we have over it. The energy ball is a very common and basic core technique for becoming aware of and directing energy. Personal energy can be felt and universal chi or energy can be used as a way of delivering other frequencies of healing energy too. Begin by holding your hands a foot or so apart, bringing them slowly toward each other, until you feel a slight resistance between them. It will feel as though a mass of energy has built up between your hands.

Feel all around this energy with your hands, feeling the shape of the packet of energy you have gathered. Fashion it into a ball shape. For some this ball will begin by being cup sized, for others it will be a big beach ball. This may take some practice to feel. some people do not sense energy this
