nostalgia religious values economic motives cultural memory and a spirit of celebration these festivals are performances that promote and preserve a community's unique identity and heritage while at the same time attempting to place the ethnic community within the larger American experience Although these aims are pervasive across ethnic heritage celebrations two festivals that appear similar may nevertheless serve radically different social and political aims Accordingly *The Dutch American Identity* examines five Dutch American festivals three of which are among the oldest ethnic heritage festivals in the United States in order to determine what such festivals mean and do for the staging communities Although Dutch Americans were historically among the first ethnic groups to stage ethnic heritage festivals designed to attract outside audiences and despite the fact that several Dutch American festivals have met with sustained success little scholarship has focused on this ethnic group's festivals Moreover studies that have considered festivals staged by communities of European descent have typically focused on a single festival *The Dutch American Identity* thus on the one hand seeks to call attention to the historical development and current sociocultural significance of Dutch American heritage festivals On the other hand this study aims to elucidate the ties that bind the five communities that stage these festivals together rather than studying one festival in isolation from the others Creatively combining several methodologies *The Dutch American Identity* describes and analyzes how the social political and ethical values of the five communities are expressed performed acted out represented costumed and displayed in their respective festivals Rather than relying on familiar even stereotypical notions of the Midwest rural America conservative America etc that often appear in contemporary political discourse Schoone Jongen shows just how complex and contradictory these festivals are in the ways they represent each community At the same time by placing these festivals within the context of American history Schoone Jongen also demonstrates how and why each festival is a microcosm of particular cultural social and political developments in modern America *The Dutch American Identity* is an important book for sociology performance studies folklore immigration history anthropology and cultural history collections

America Goes to College John E. Seery, 2012-02-01 A rallying cry on behalf of a distinctly American institution of higher learning the small liberal arts college America Goes to College combines broad based scholarship with personal narrative and reflection In a highly entertaining manner John E Seery showcases the precarious successes of a well rounded liberal arts college education while at the same time signaling some of the dangers that loom on the horizon Seery contends that the liberal arts are best pursued within the face to face interactive setting characteristic of the small college classroom as opposed to the large university lecture hall Moreover and more provocatively he identifies political theorists as the proper custodians and practitioners of the liberal arts tradition as it unfolds today It is the unfettered freedom of the small liberal arts college where vision and practice can actually coincide that makes it the embodiment of the advantages of the American higher education system a national treasure deserving of support

Doctor Mary in Arabia Mary Bruins Allison, 2010-06-04 Until fairly recently Arab women rarely received professional health care since few women doctors had ever practiced in Arabia and their culture forbade them from consulting male doctors Not surprisingly Dr Mary Bruins Allison faced an overwhelming demand when she arrived in Kuwait in 1934 as a medical missionary of the Reformed Church of America Over the next forty years Dr Mary treated thousands of women and children faithfully performing the duties that seemed required of her as a Christian to heal the sick and seek converts These memoirs record a fascinating life Dr Allison briefly describes her upbringing and her professional training at Women s Medical College of Pennsylvania She then focuses on her experiences in Kuwait where women of all classes including royalty flocked to her care In addition to describing many of her cases Dr Allison paints a richly detailed picture of life in Kuwait both before and after the discovery of oil transformed the country Her recollections include invaluable details of women s lives in the Middle East during the early and mid twentieth century They add a valuable chapter to the story of modern medicine to the largely unsuccessful efforts of the Christian church to win converts in the Middle East and to the opportunities and limitations that faced American women of the period Dr Allison also worked briefly
